

**Conformity's agent
or diversity's creator...**

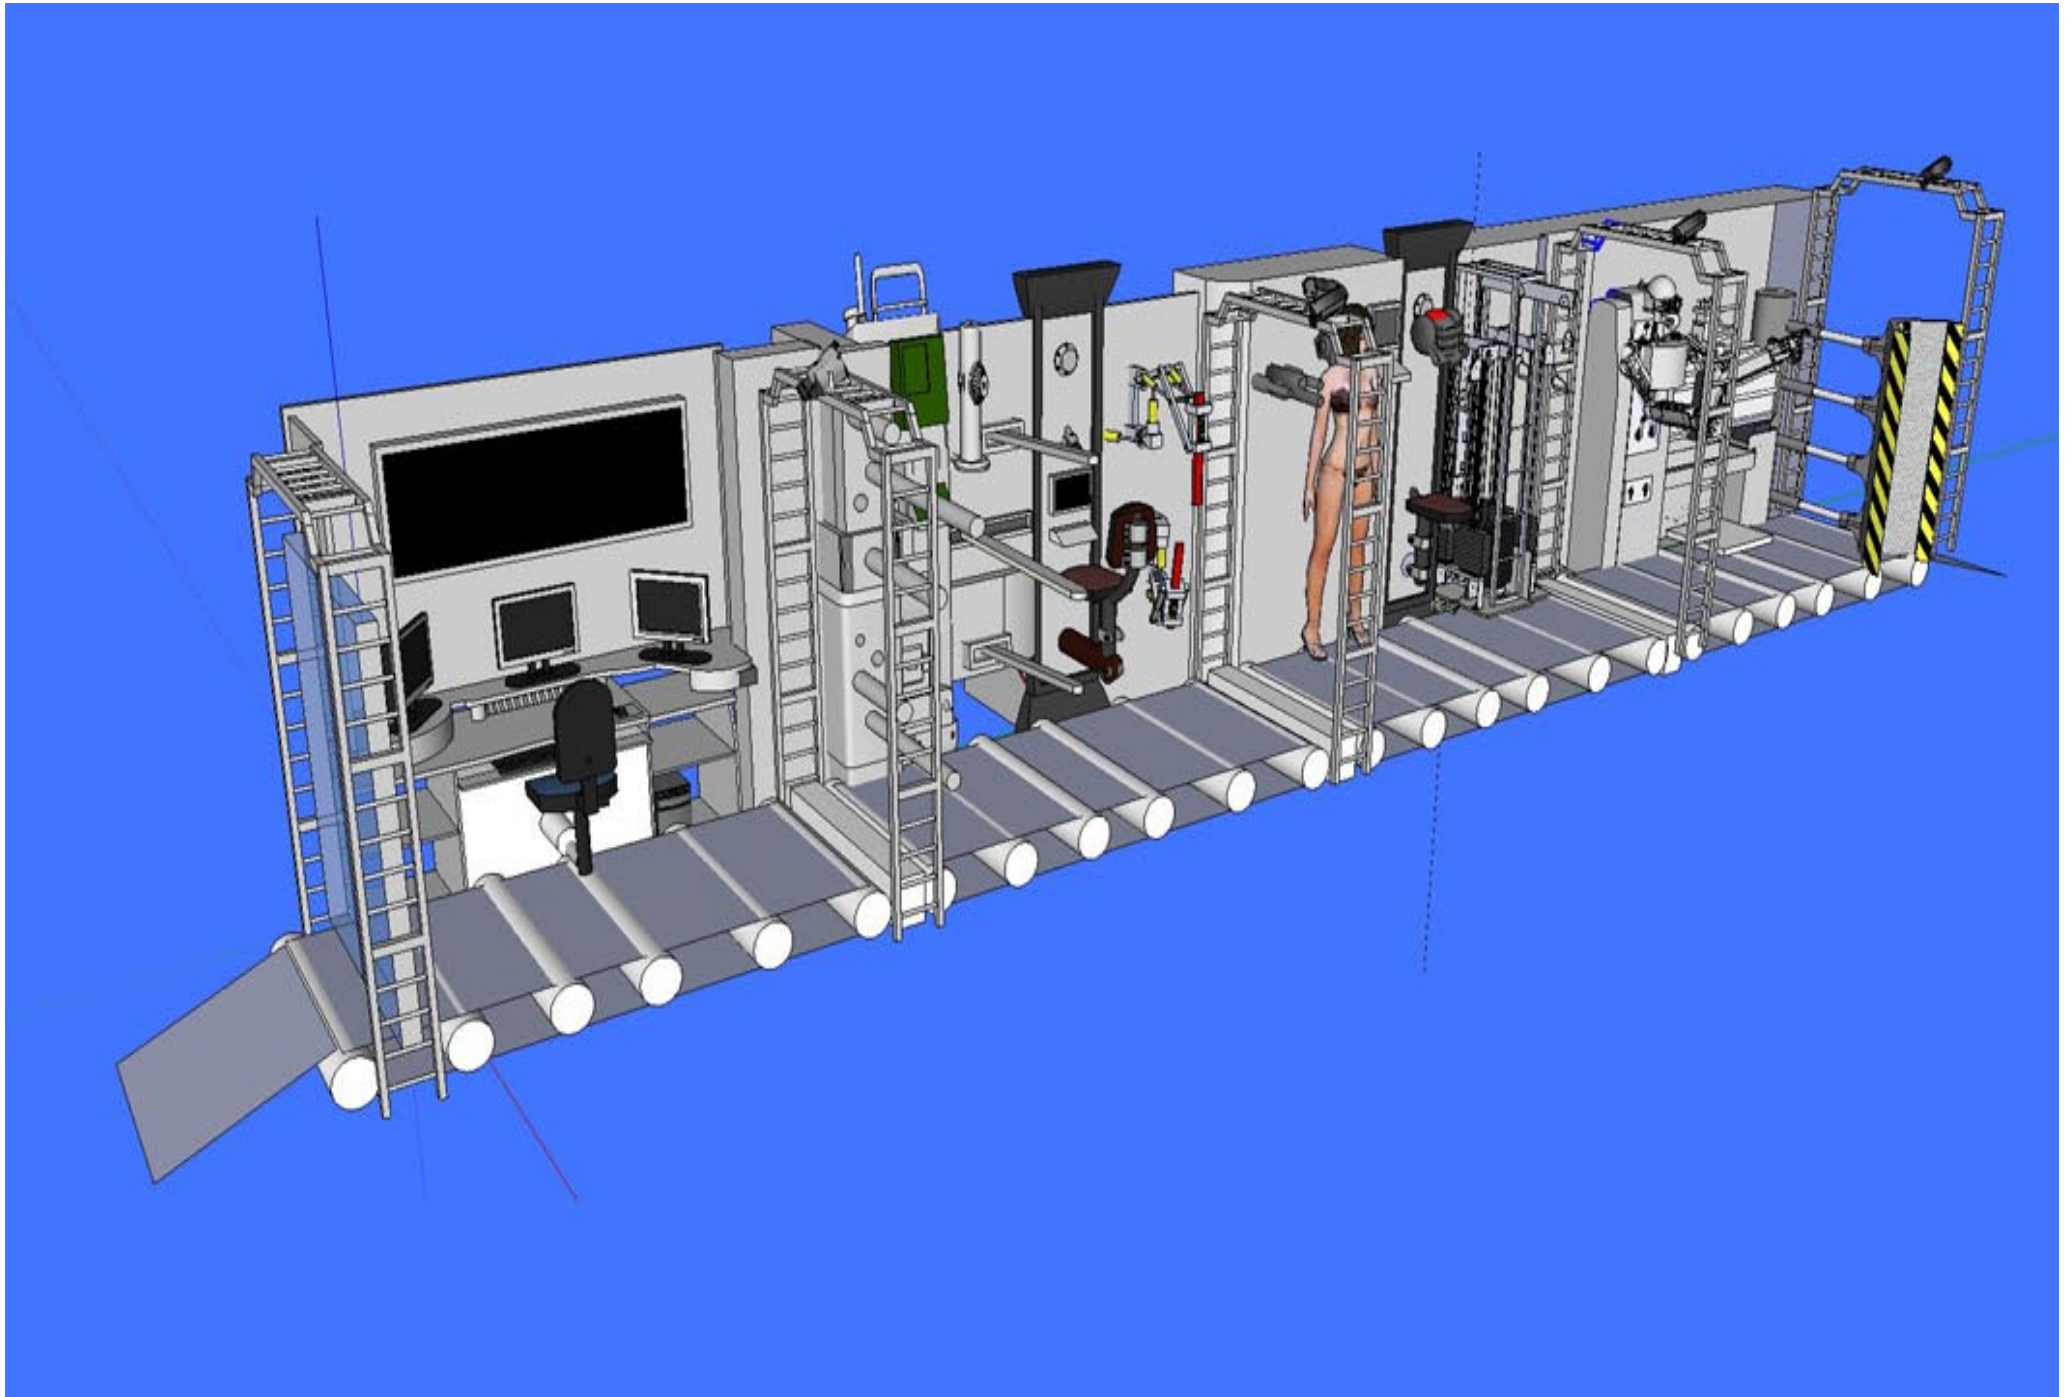

Tanguy Samzun

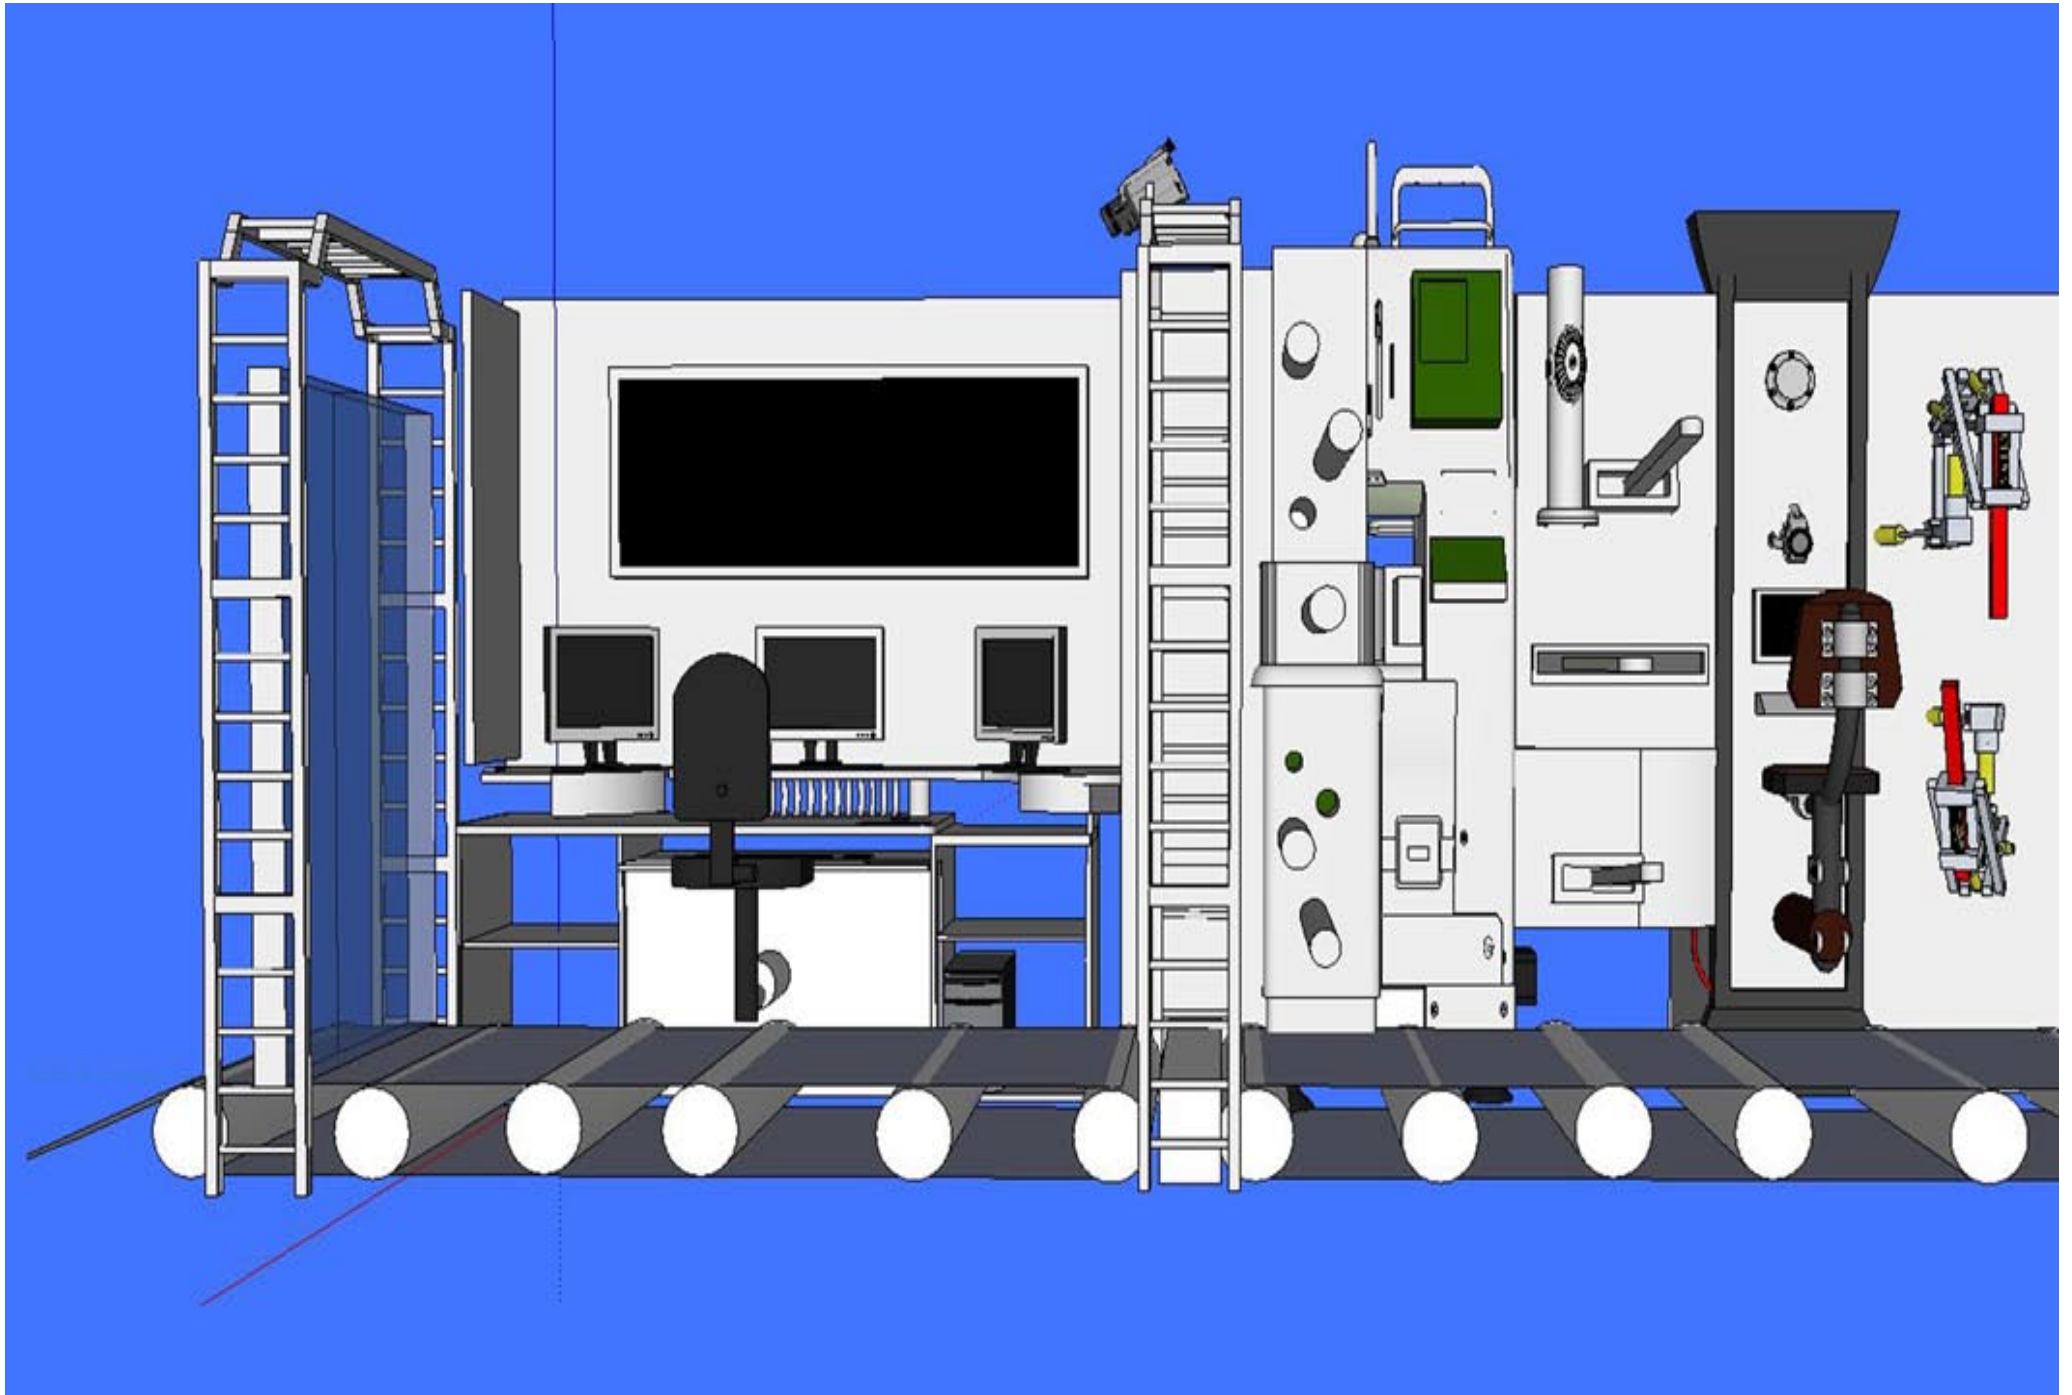

Conformity's agent or diversity's creator?

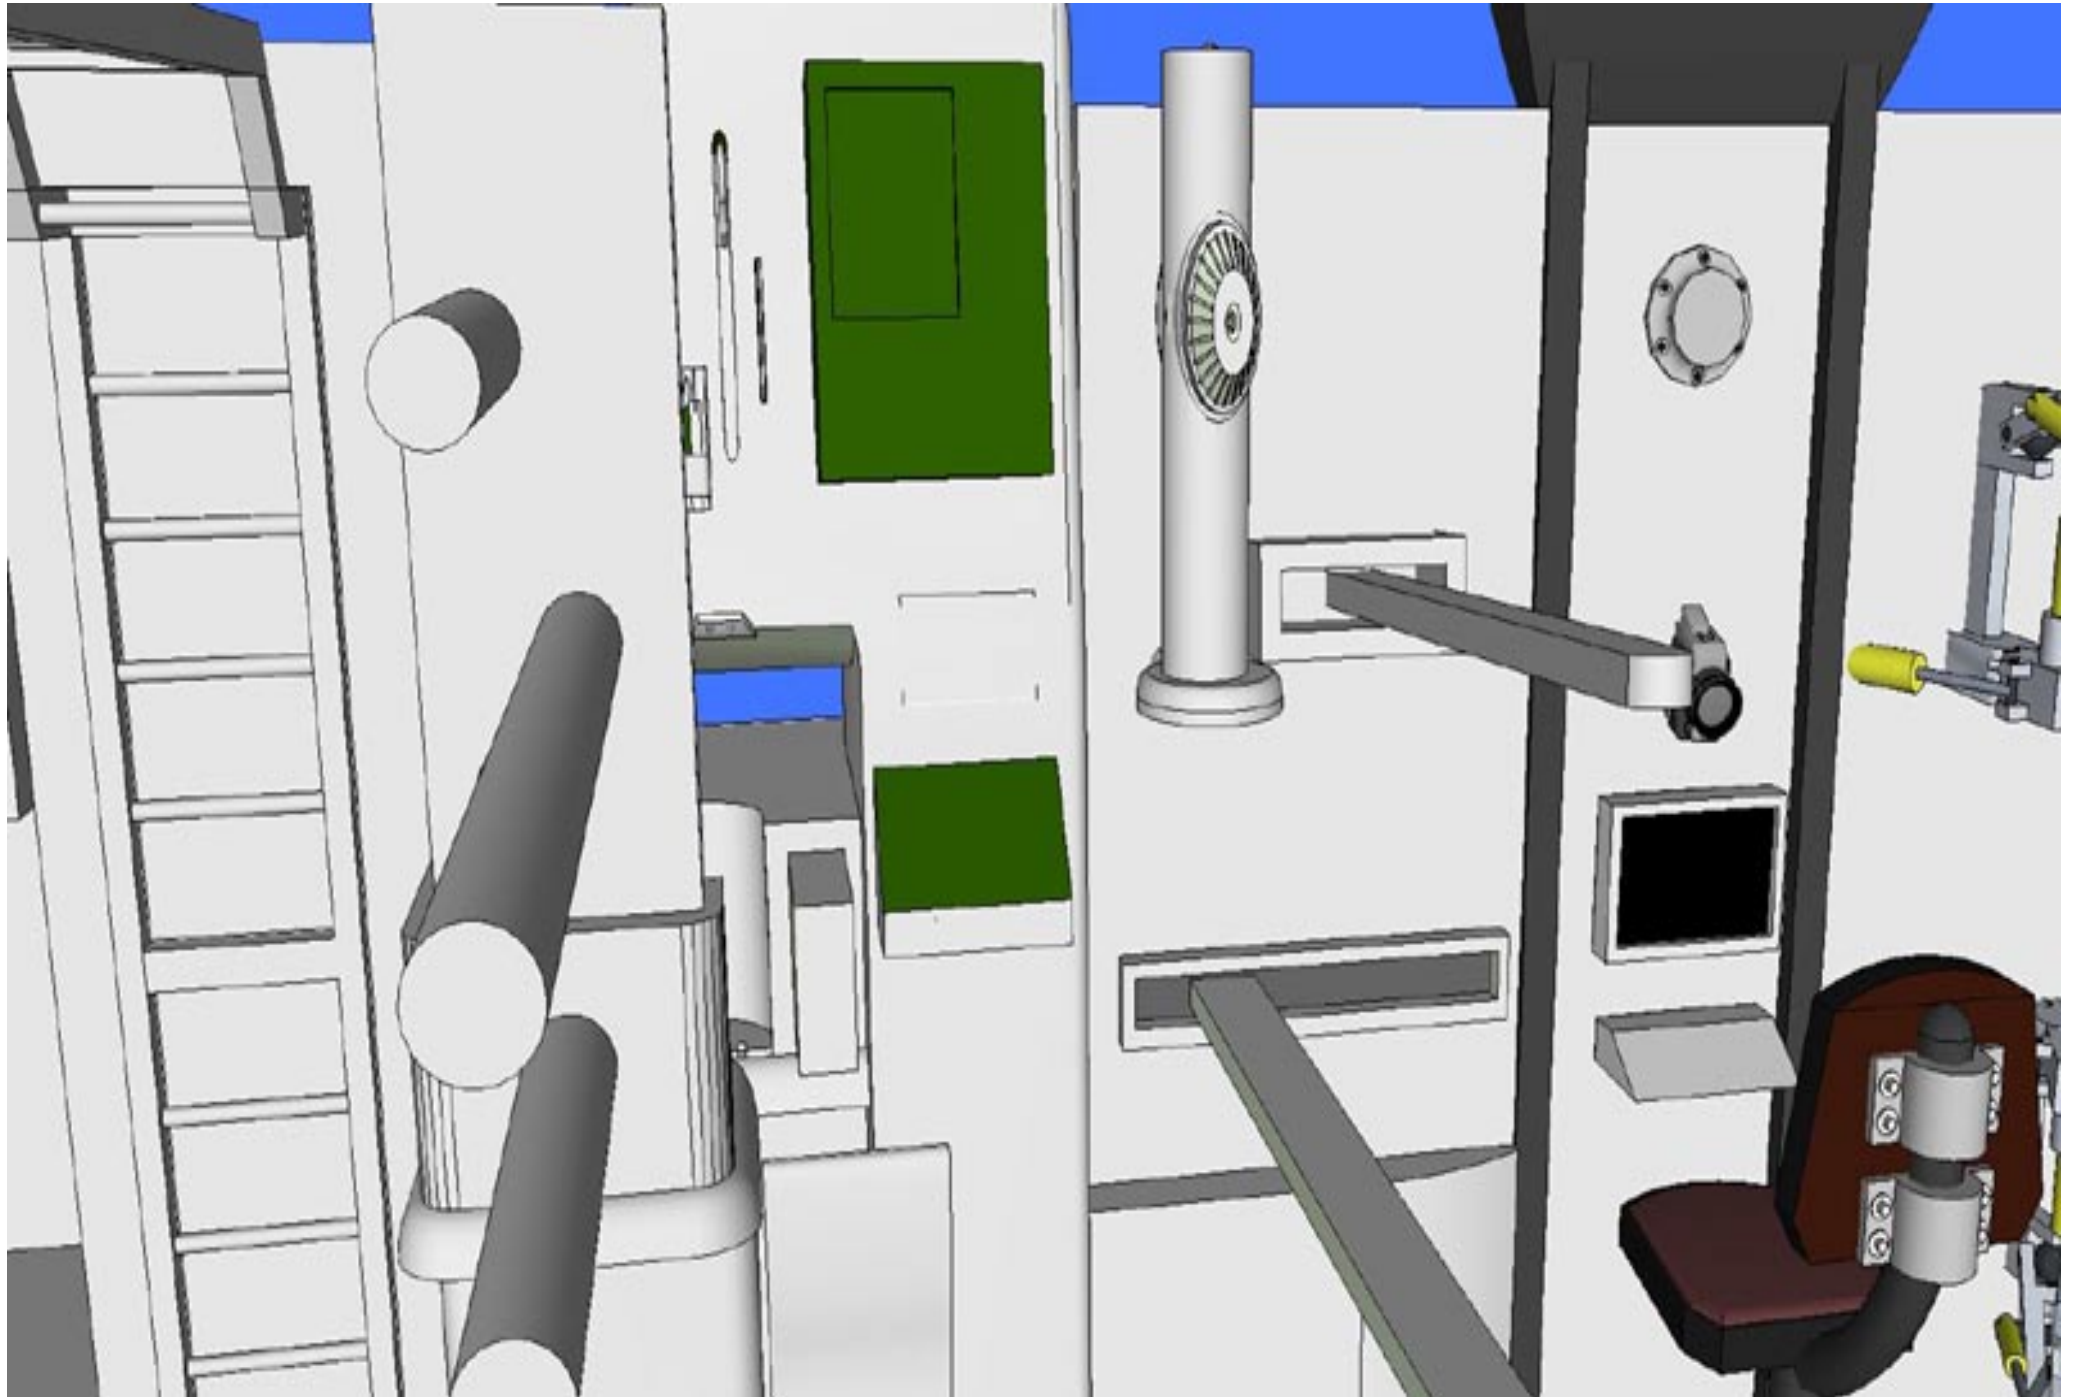

Conformity is a type of social influence involving a change in belief or behavior in order to fit in with a group.
This machine is made to detect the diversity's creator.

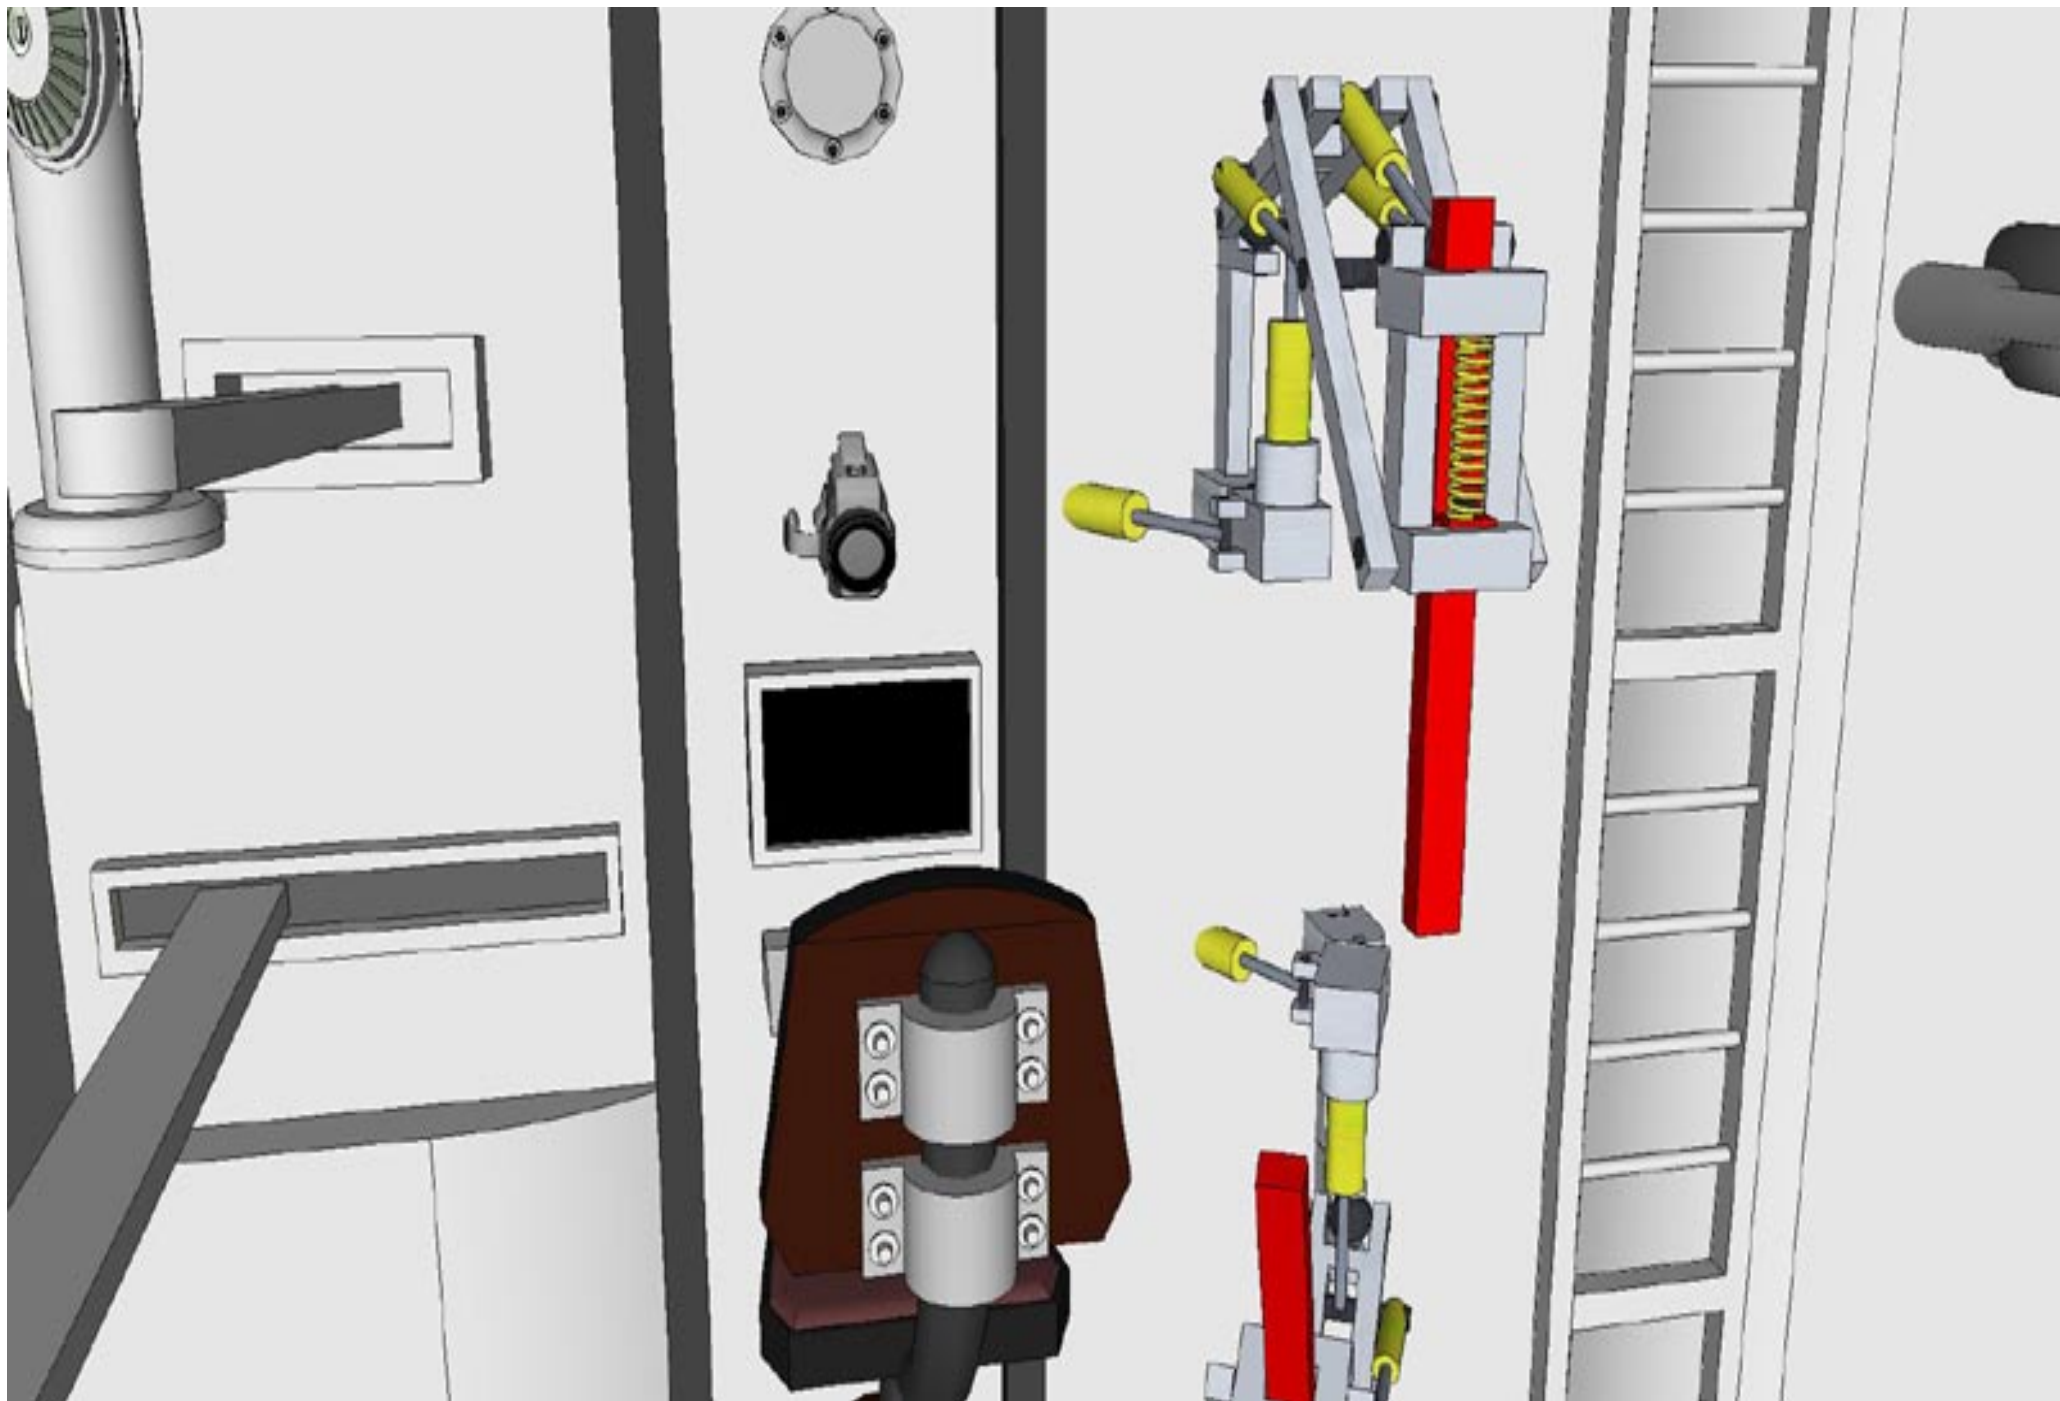

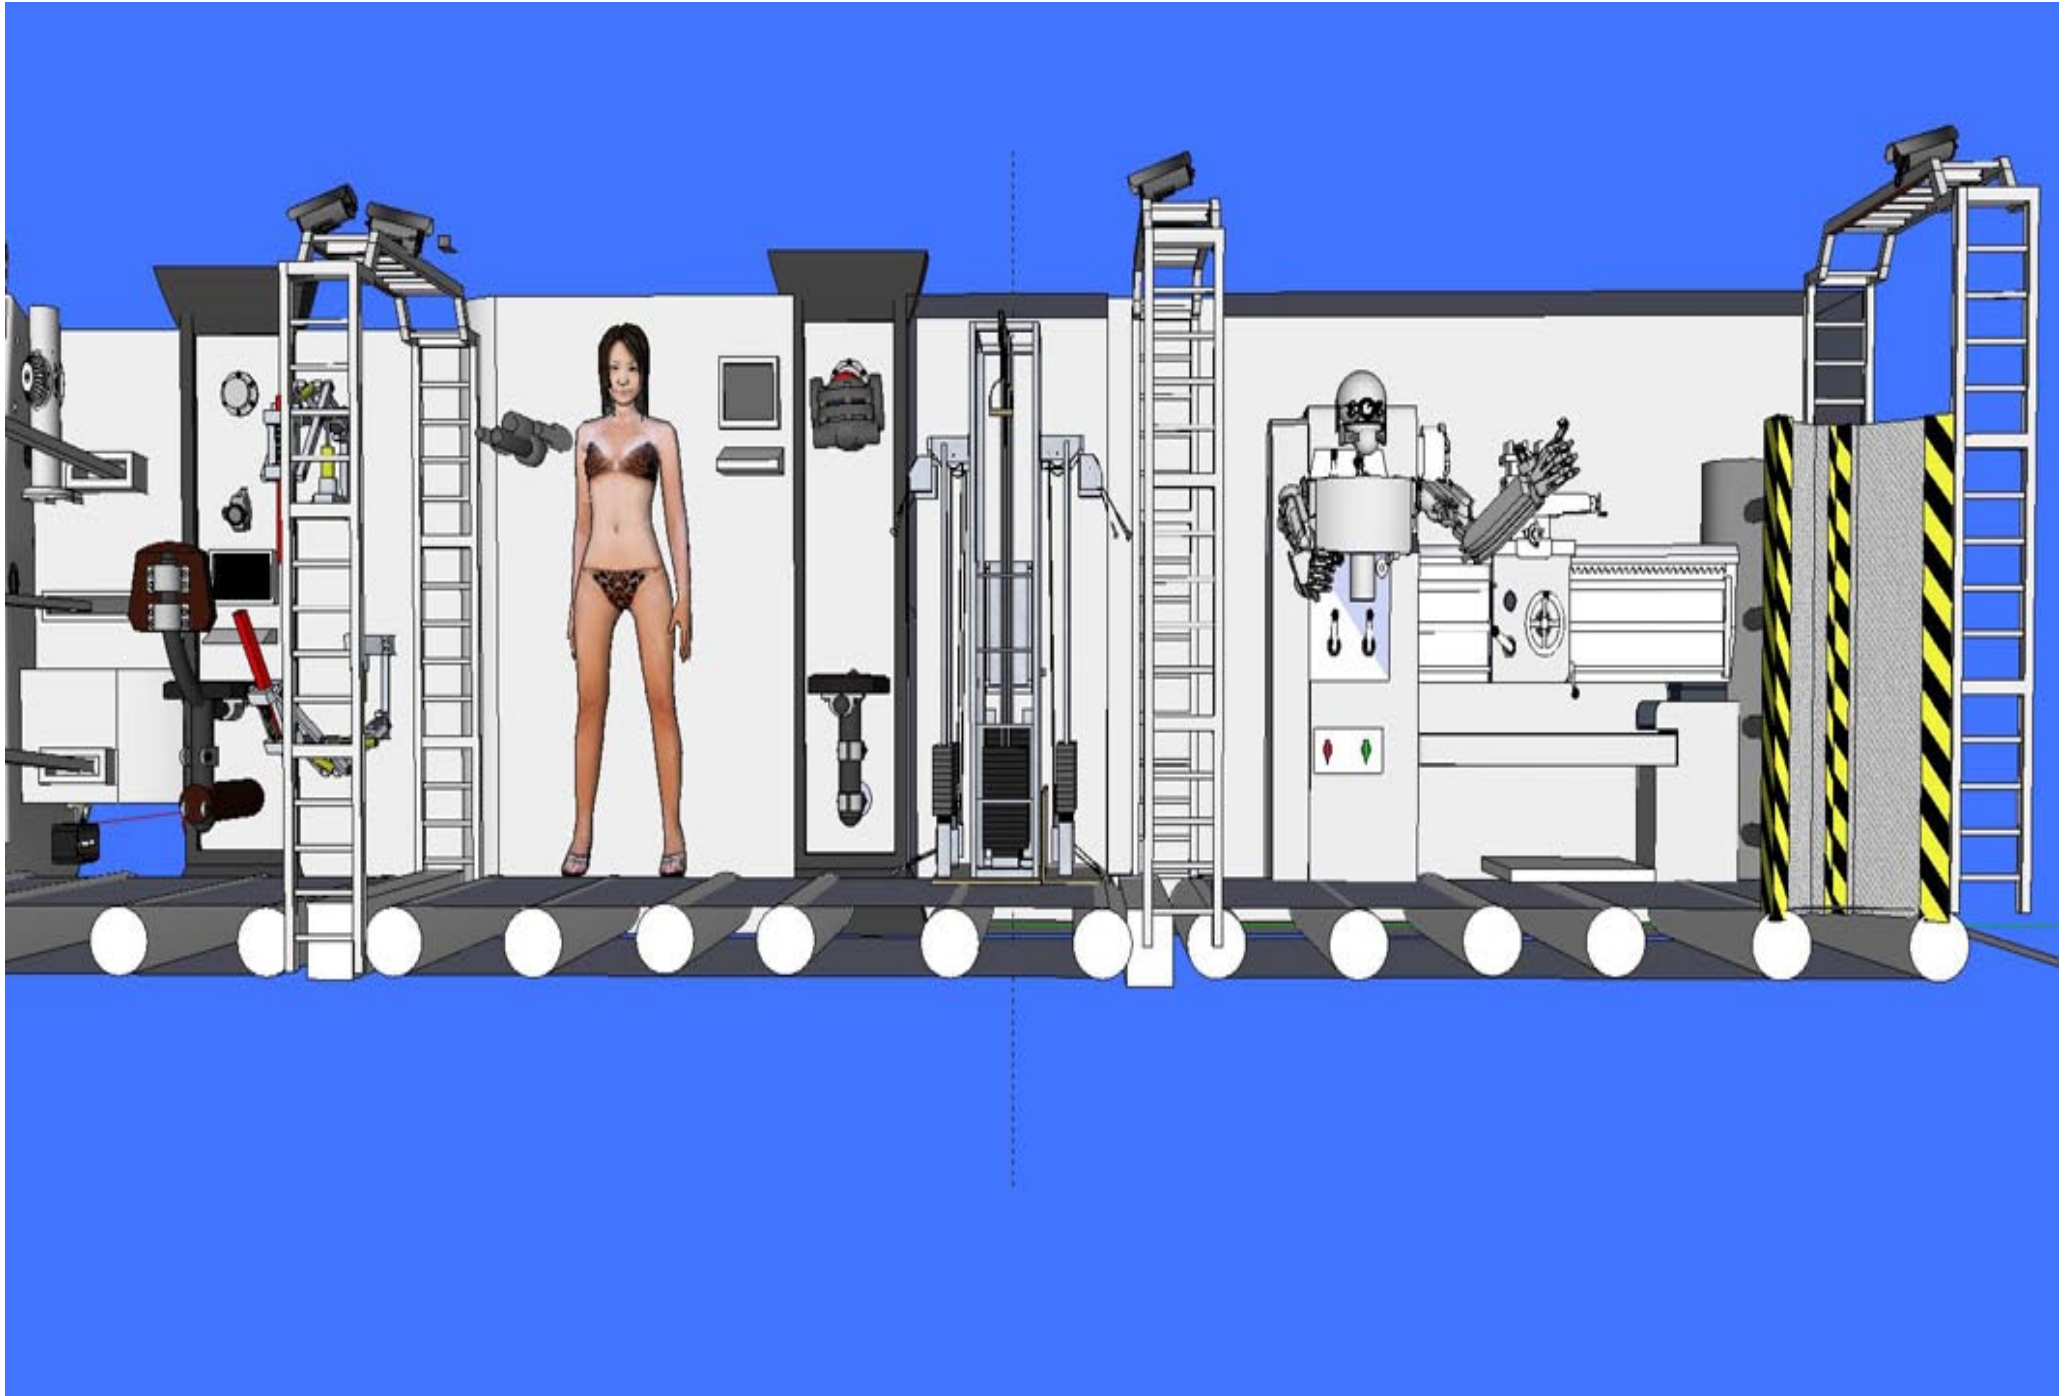

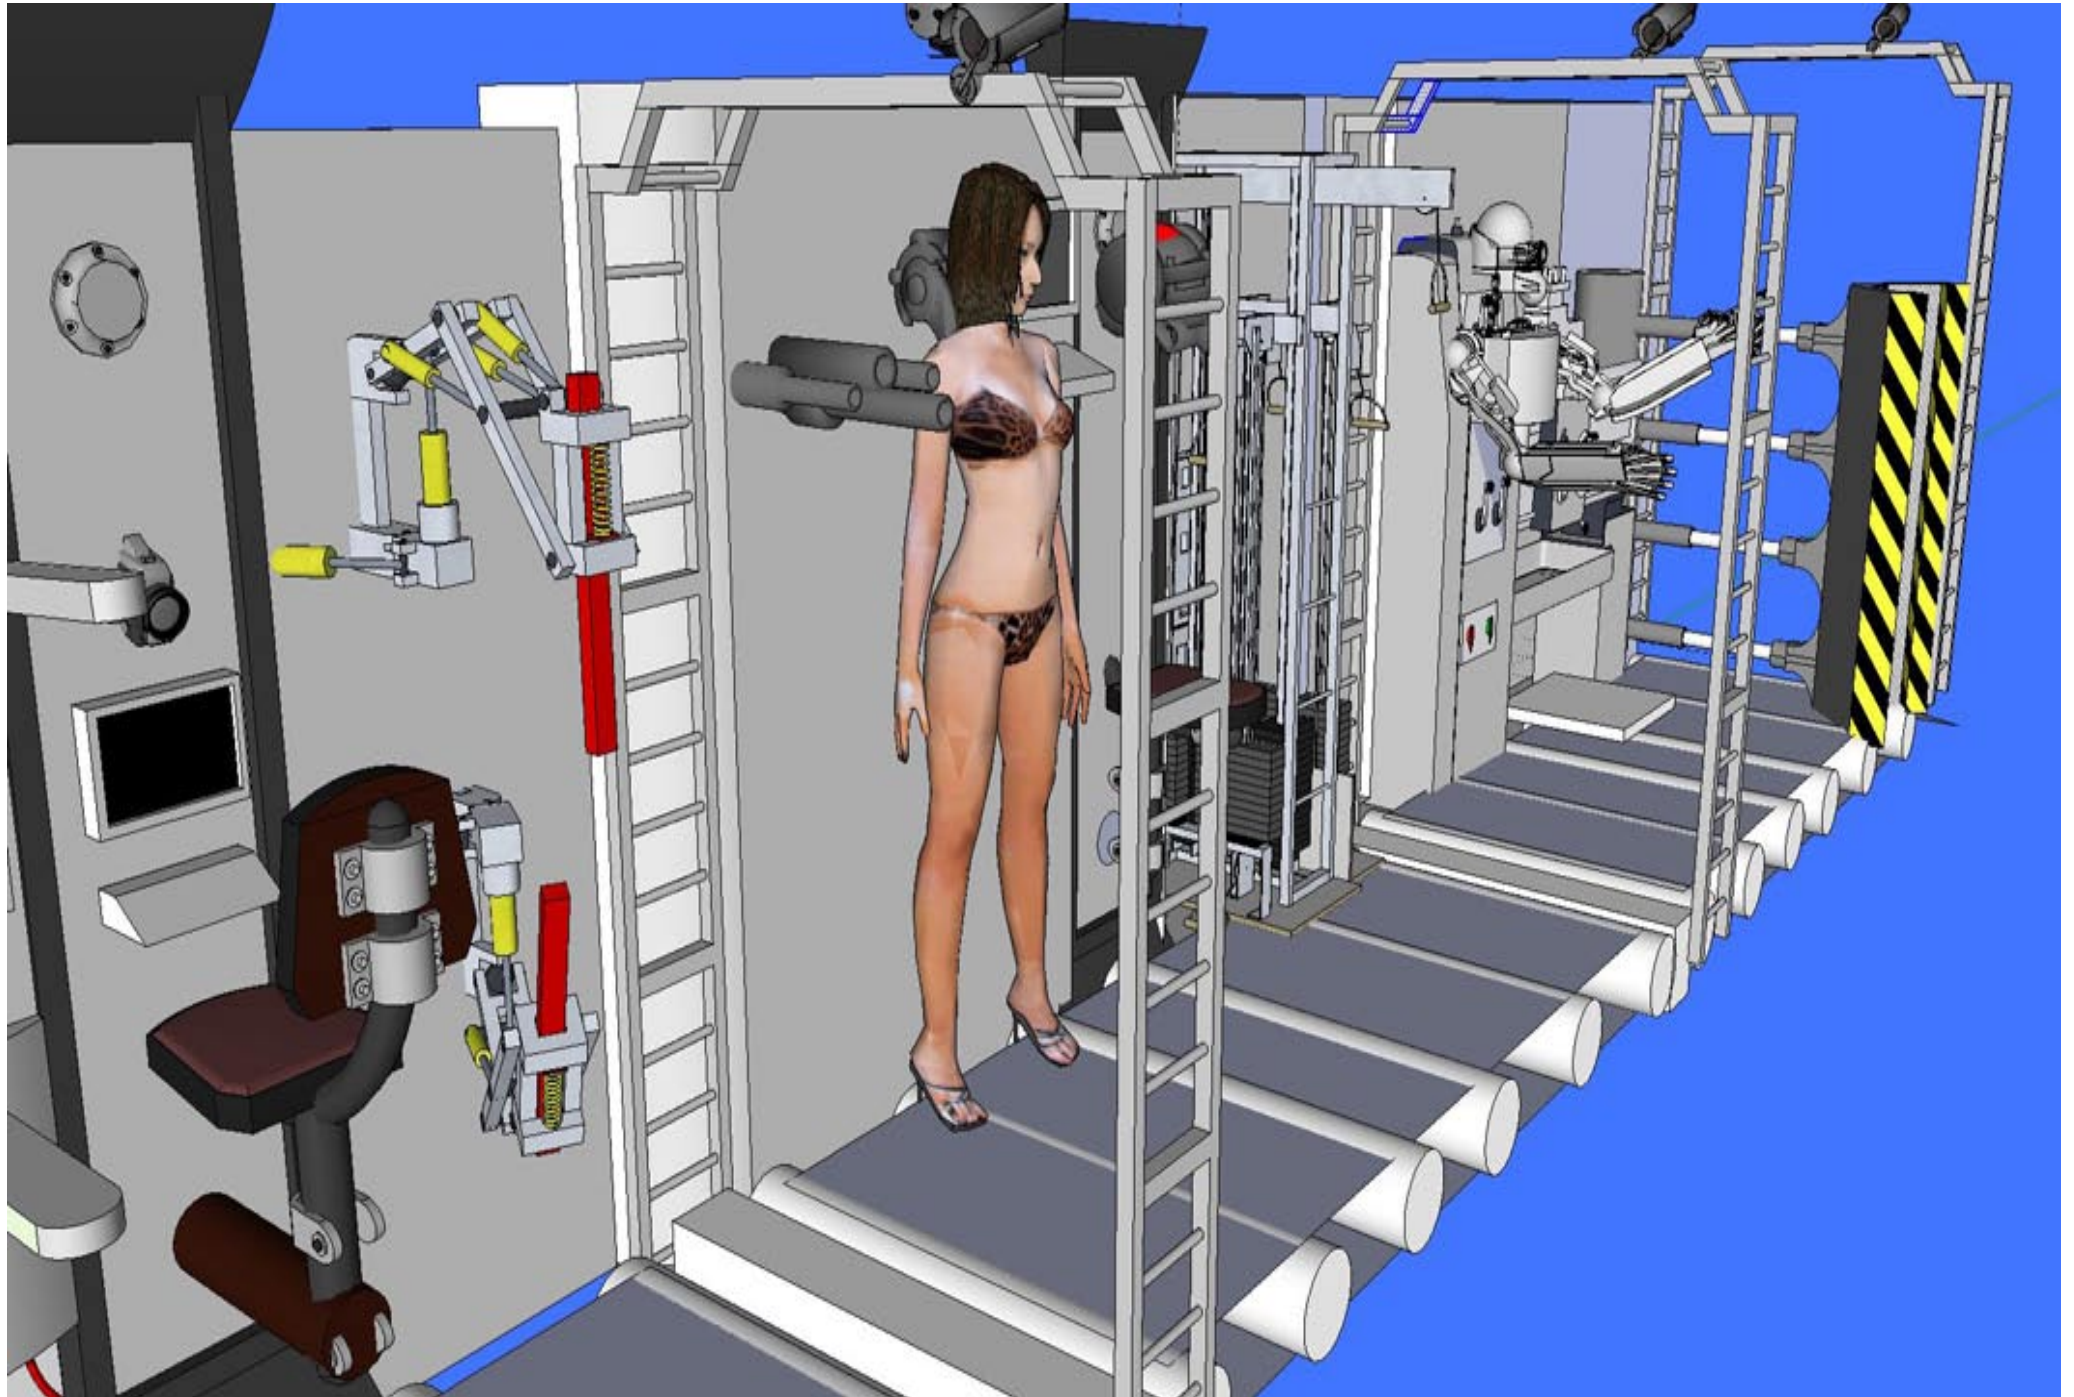

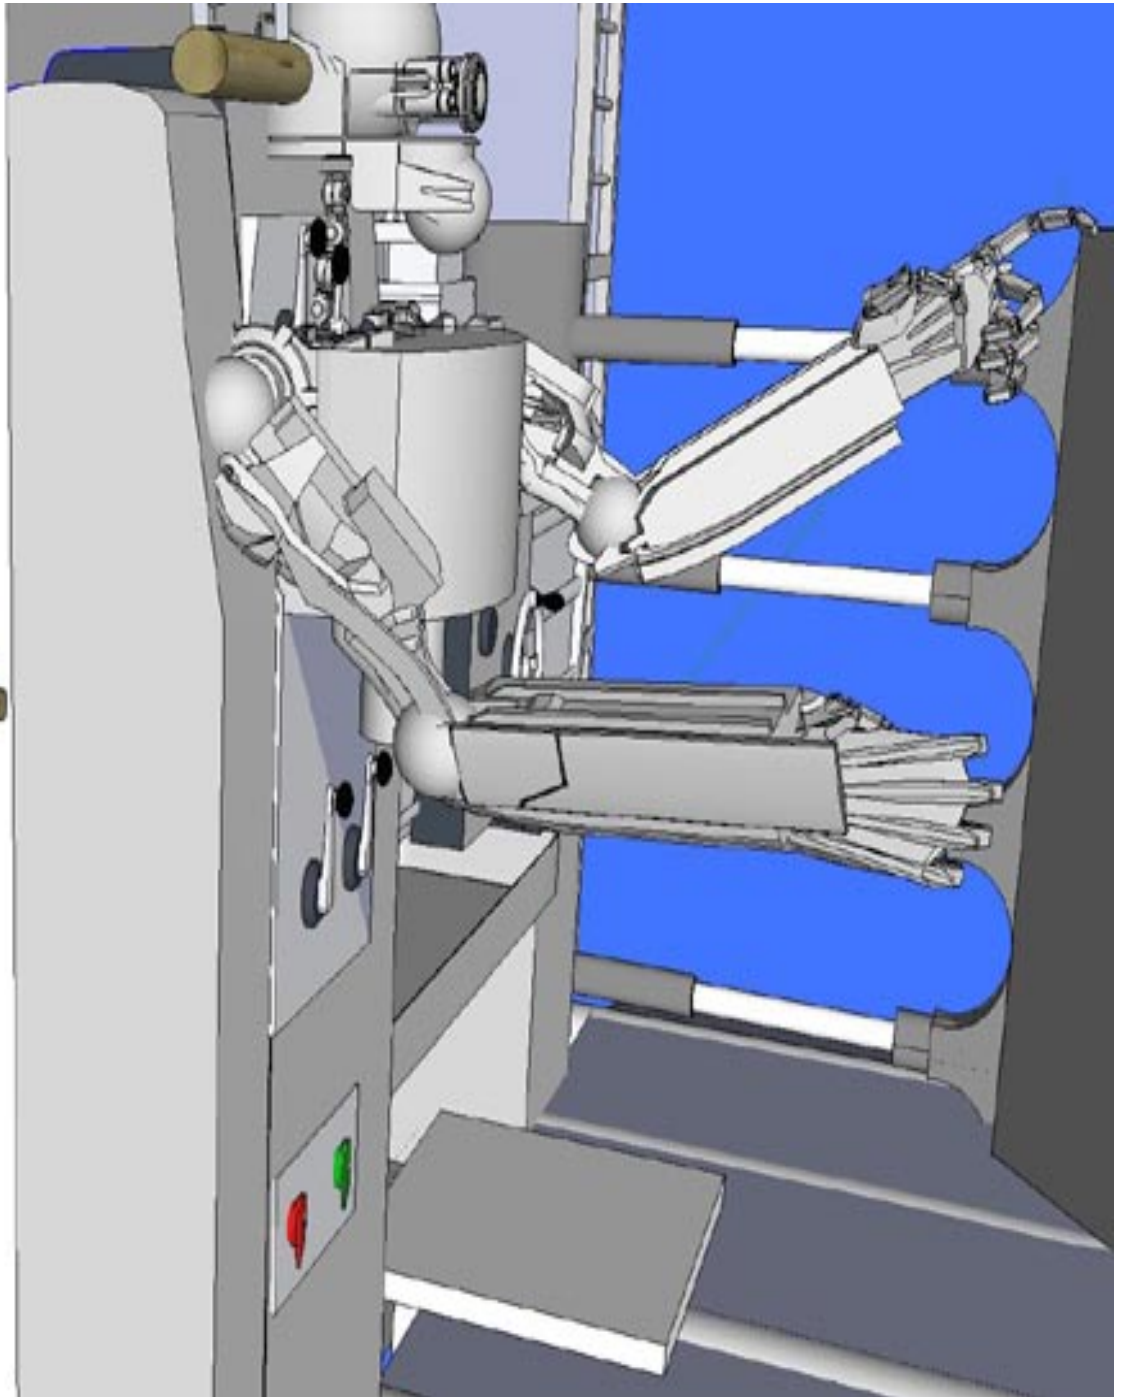

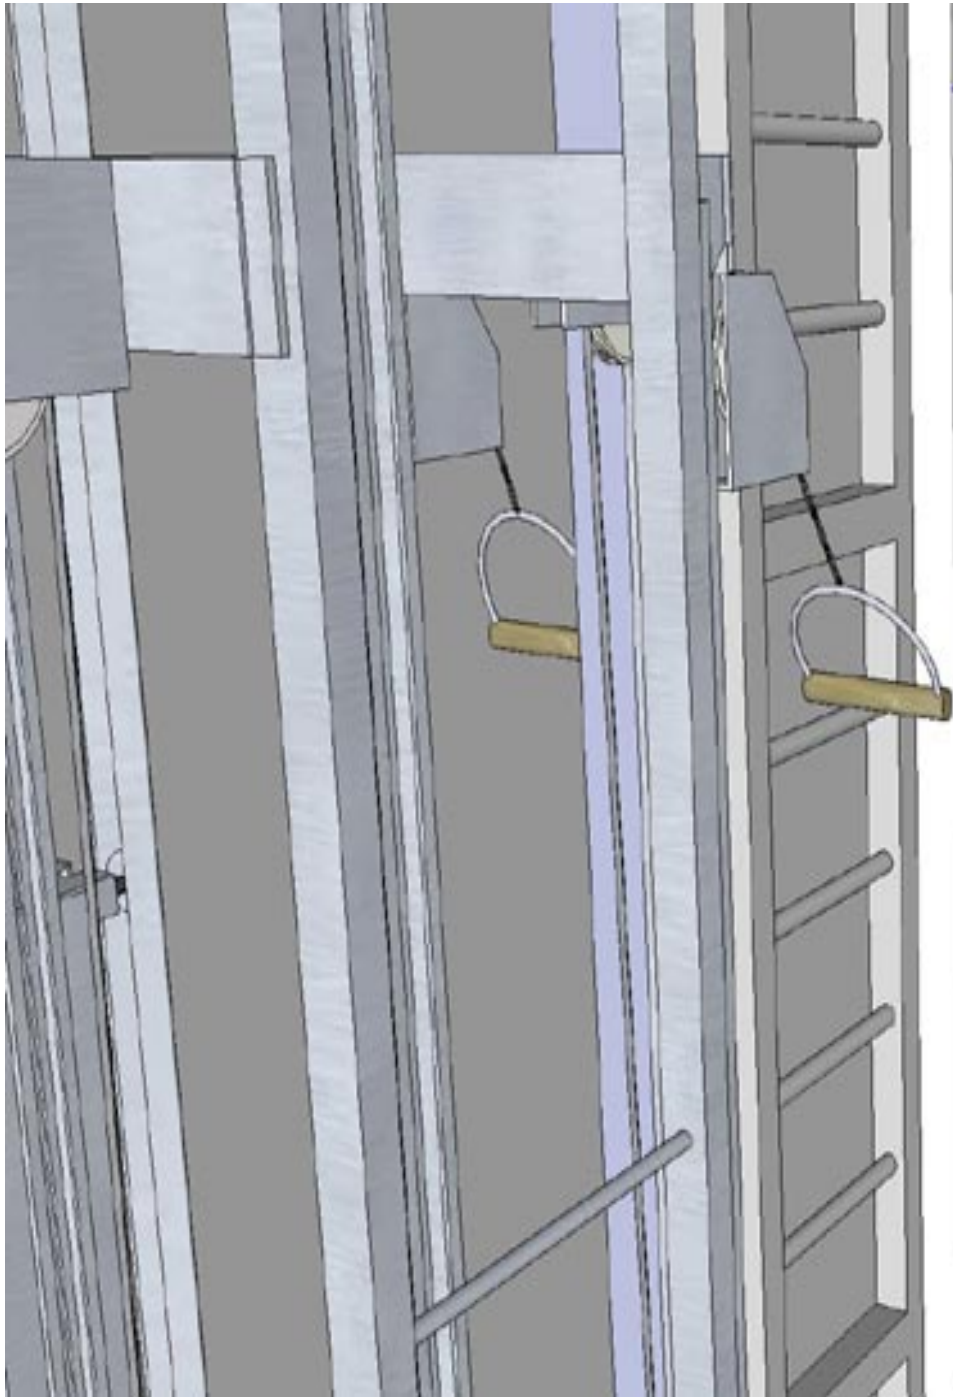

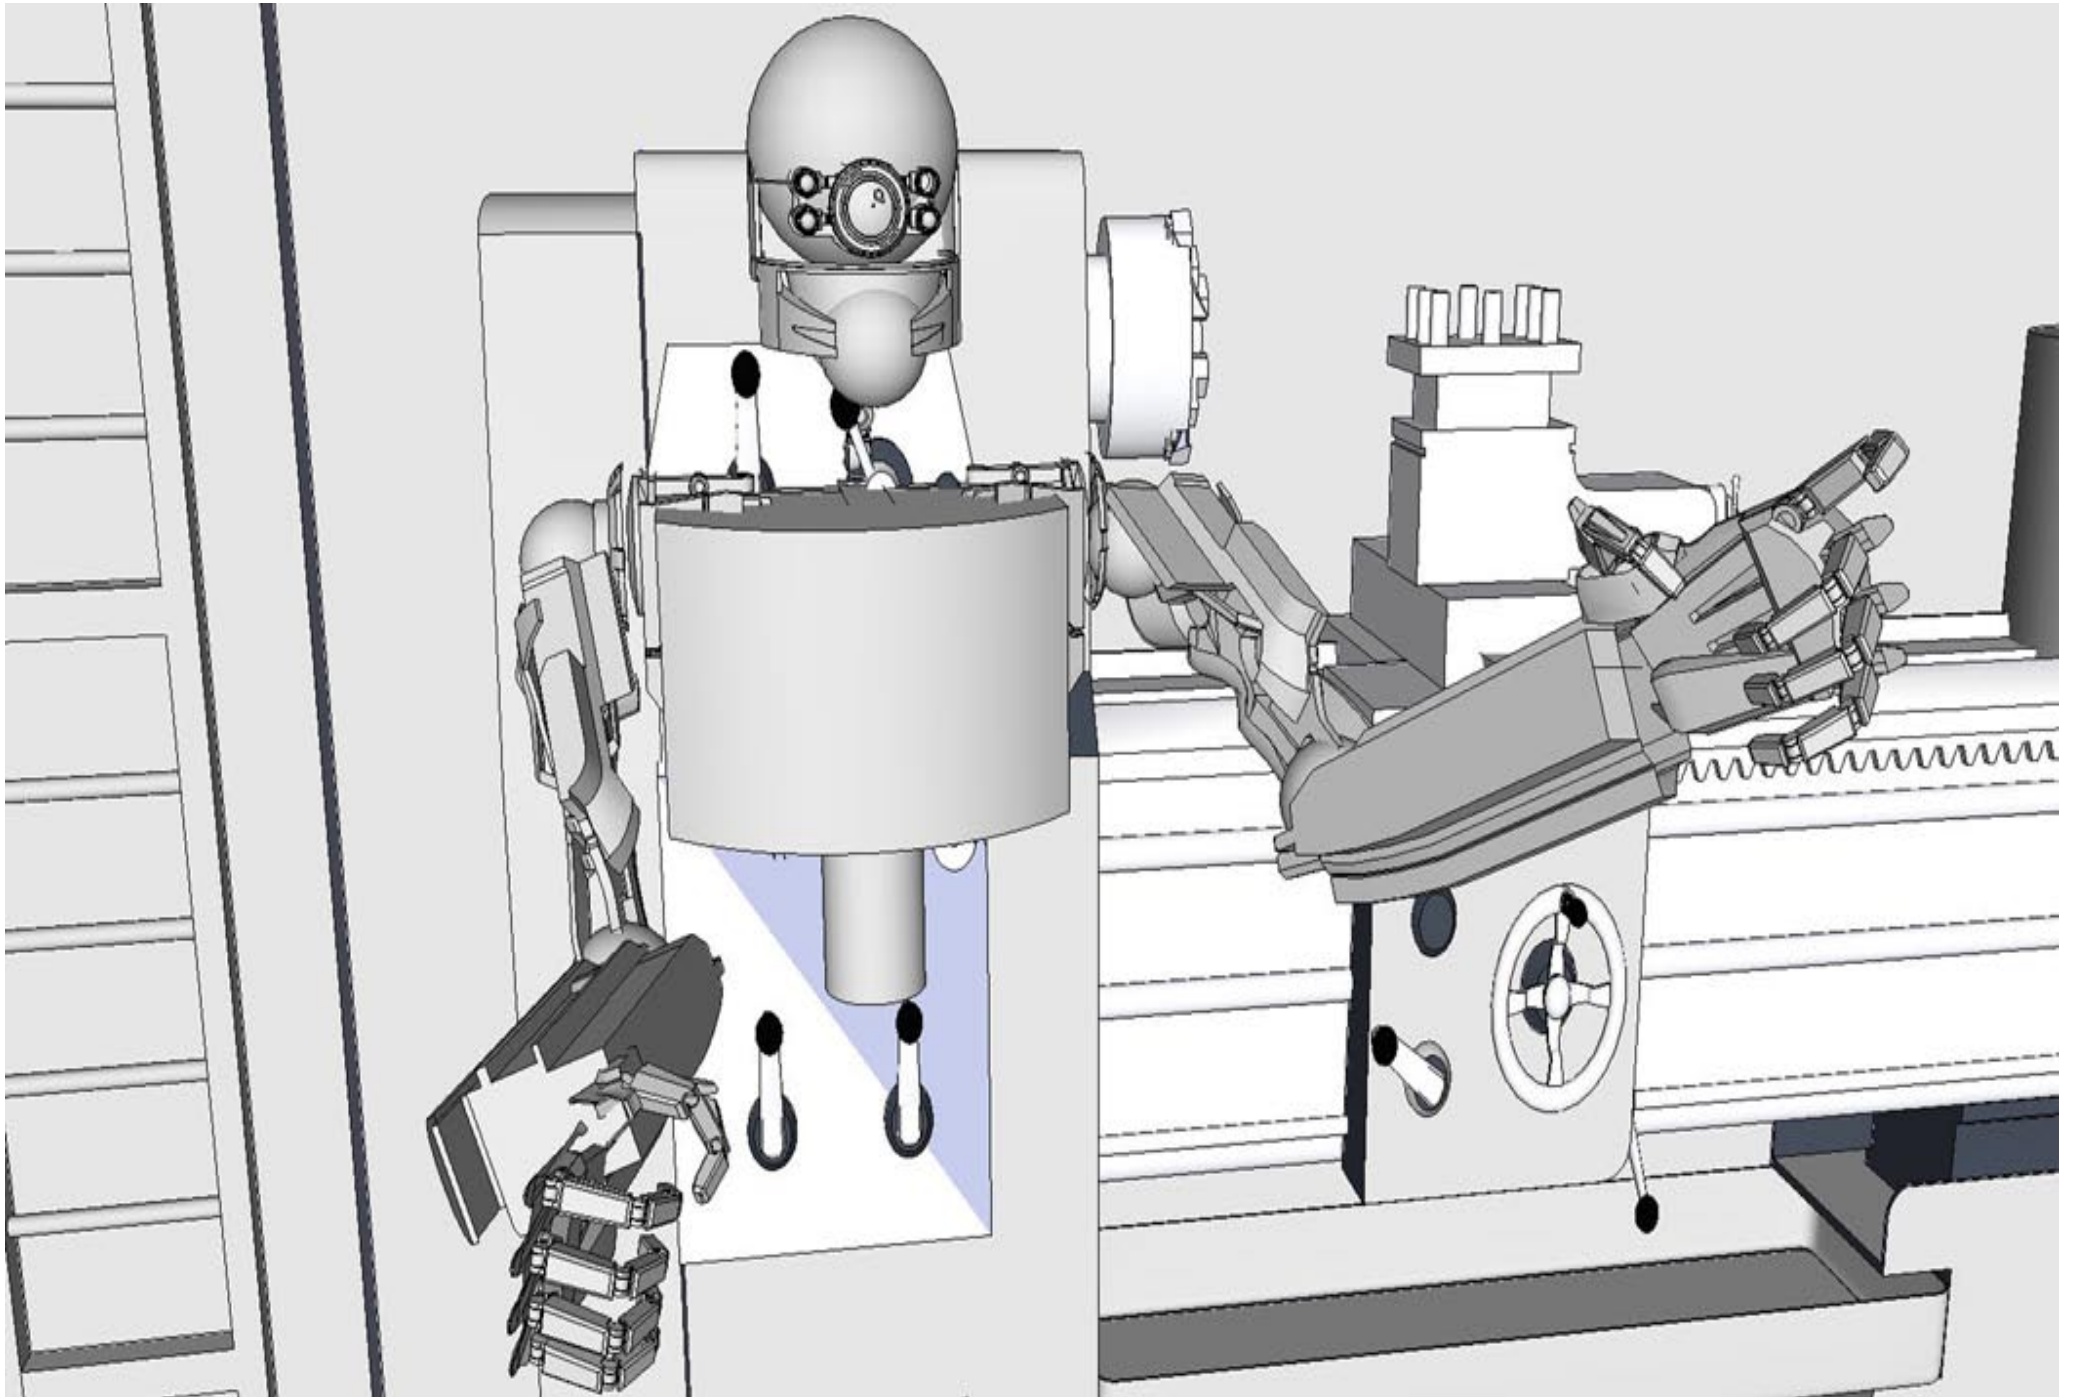

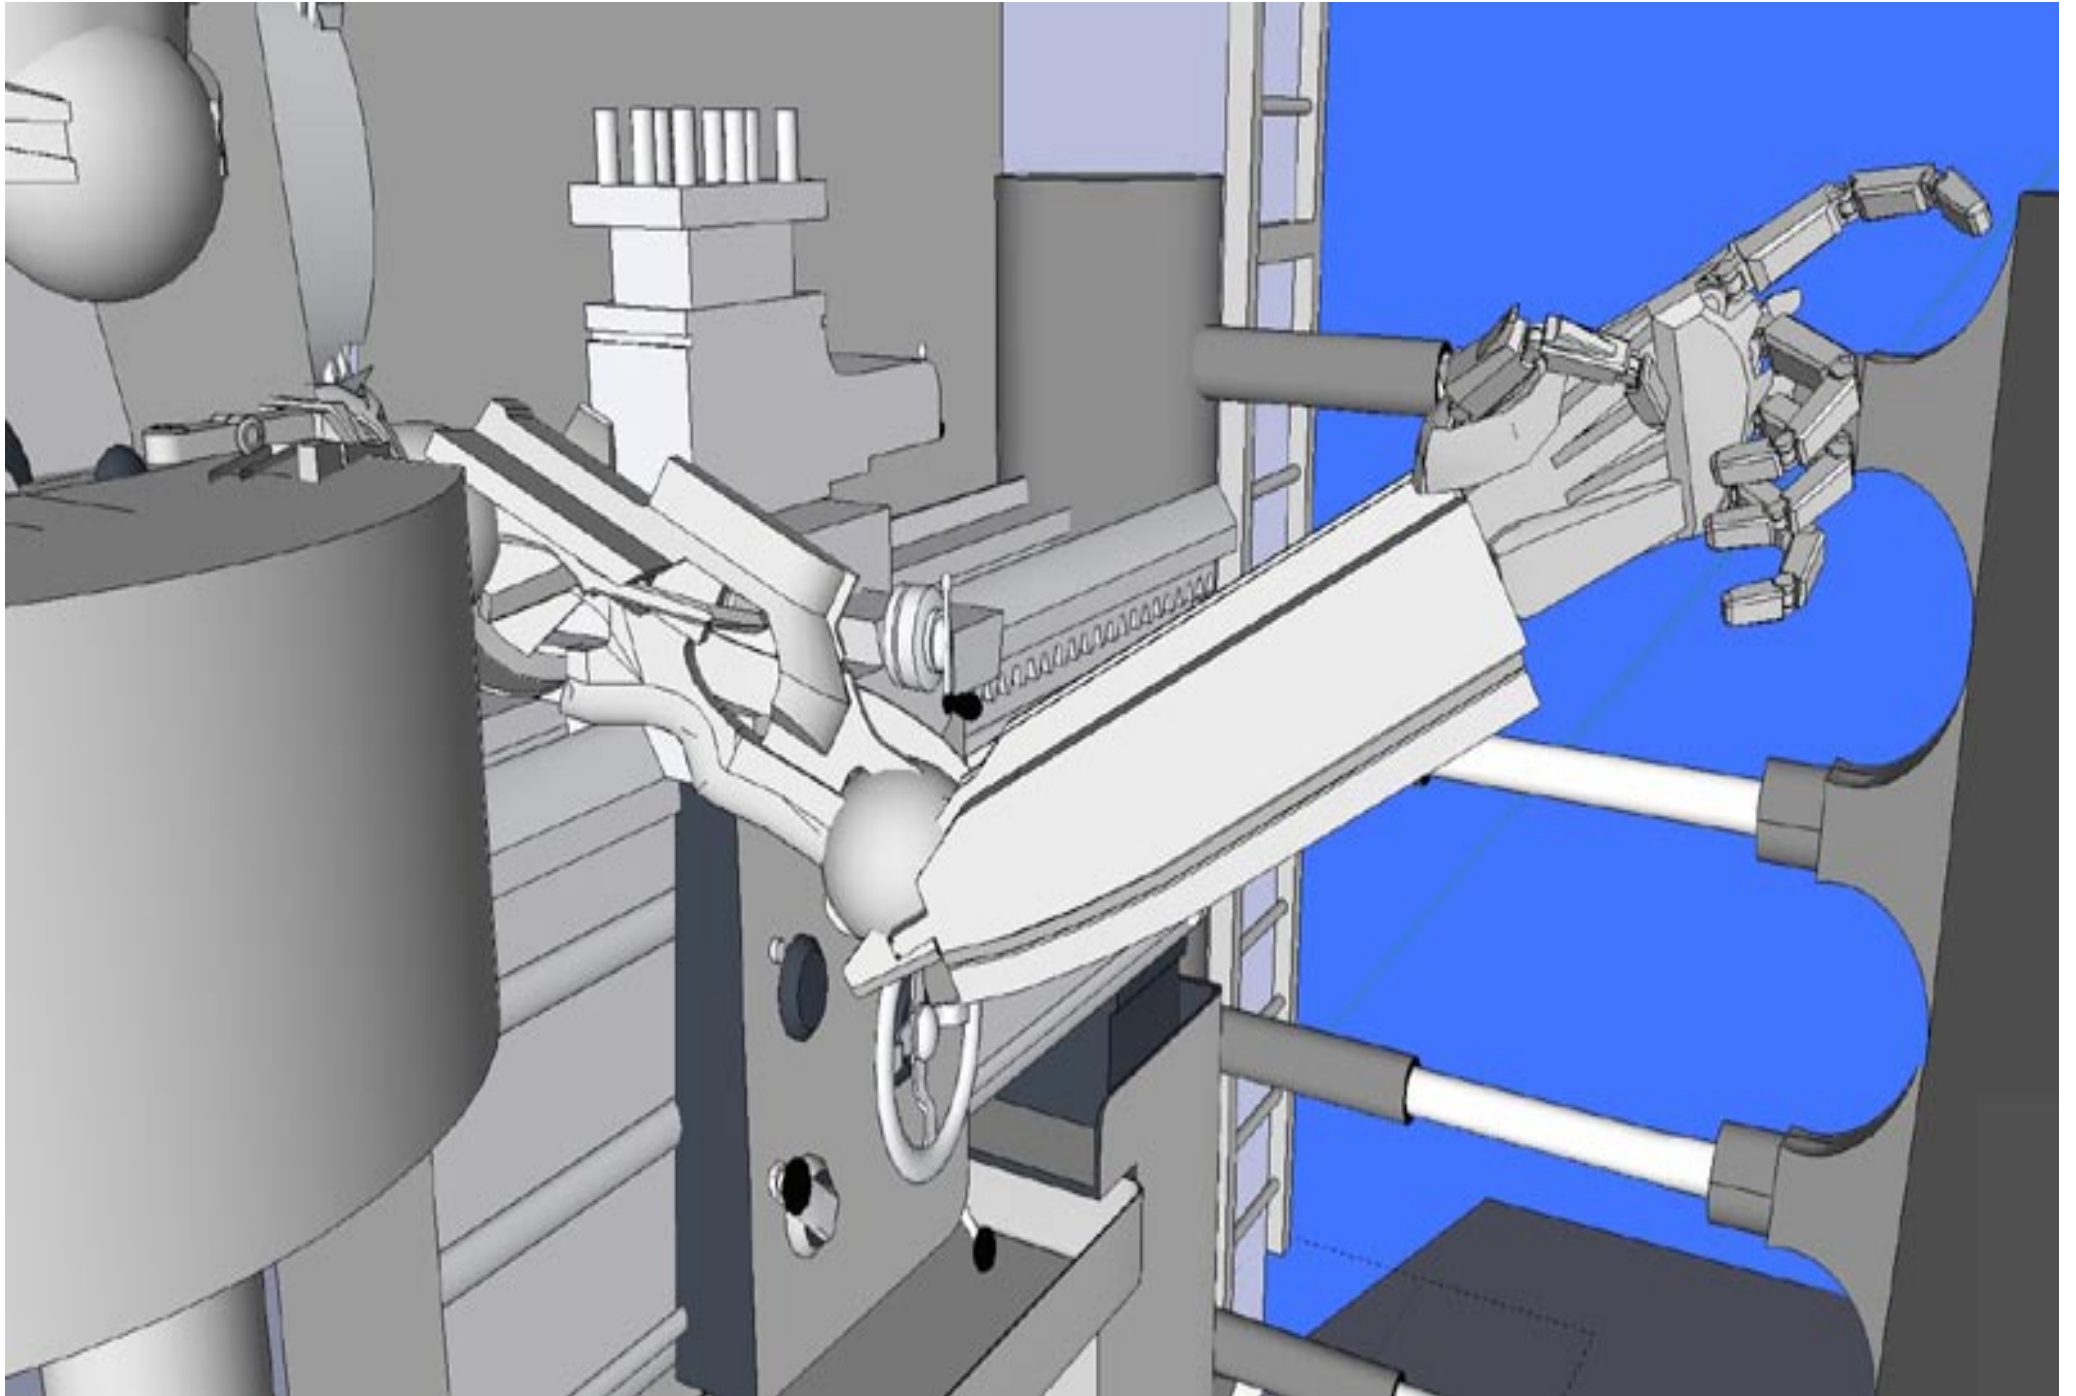

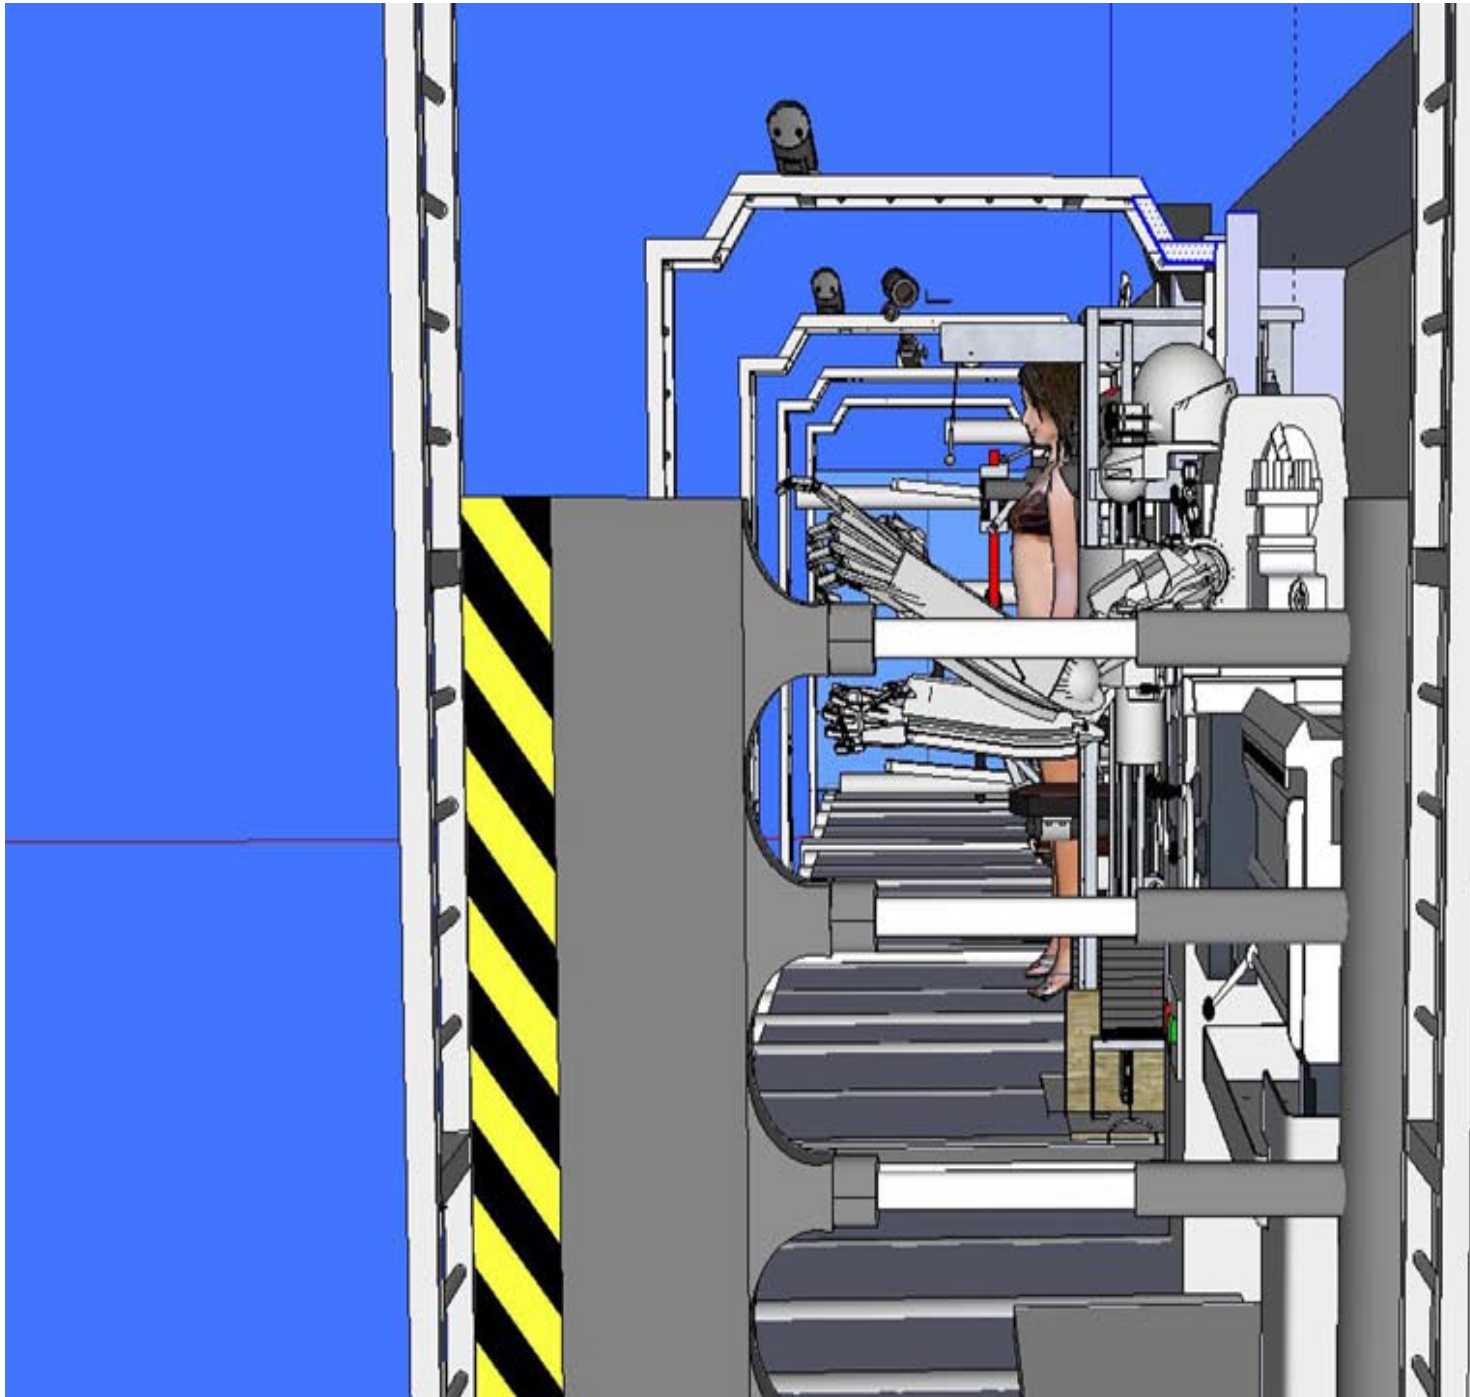

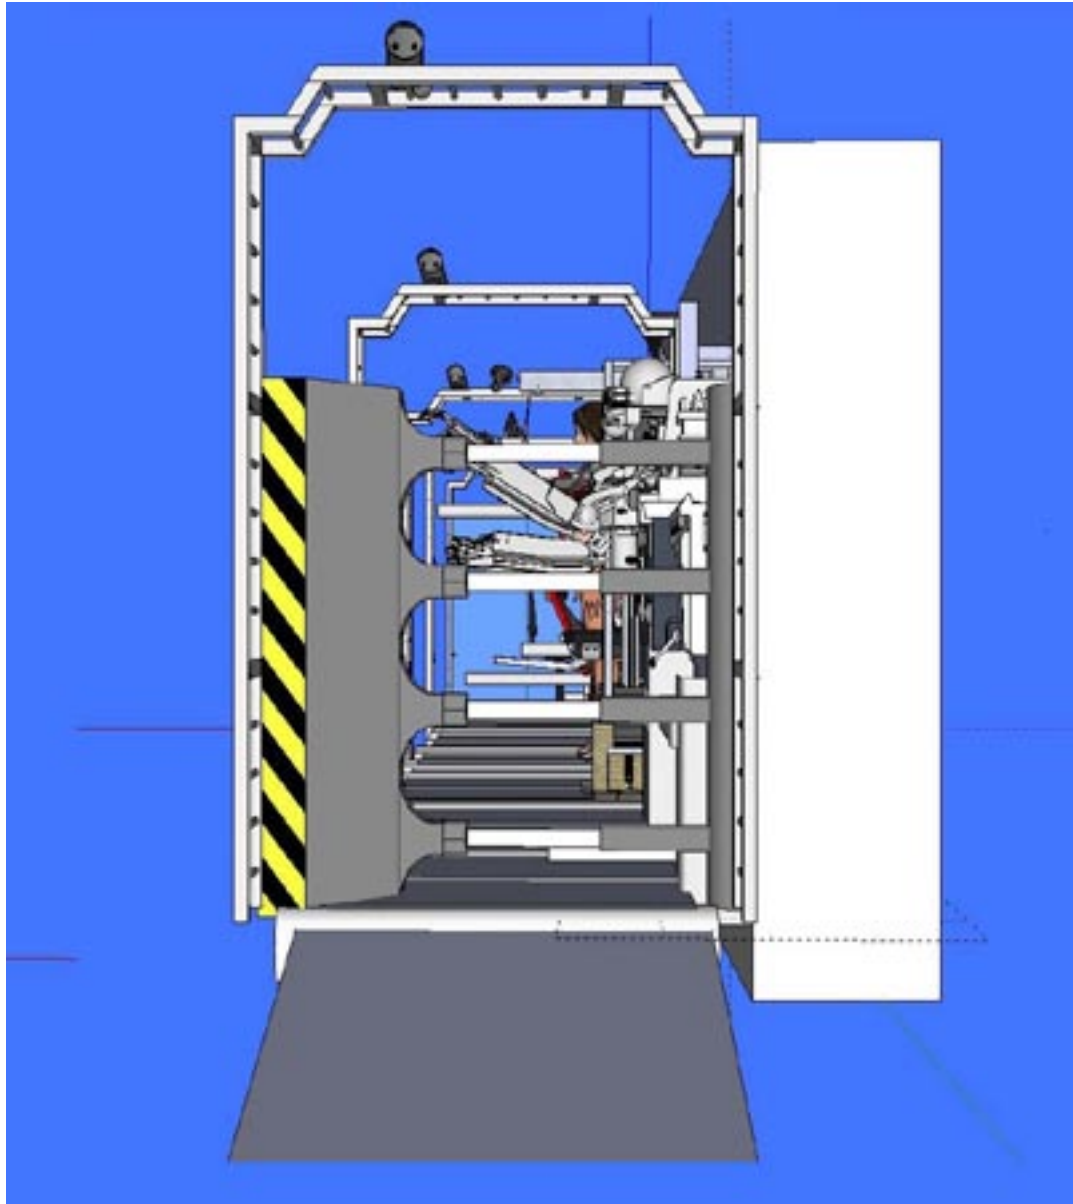

Conformity's agent or diversity's creator?

It is more important to know that the produce is in conformity with the standard than how that was established.

In essence, to answer a key question: How can the value of diversity be assessed?

A pluralism that cherishes and nurtures cultural diversity is critical to guaranteeing respect for the freedom of all.

Legitimate diversity of views of a cultural, ethical, economic, scientific or religious nature.
