

Half of Heaven

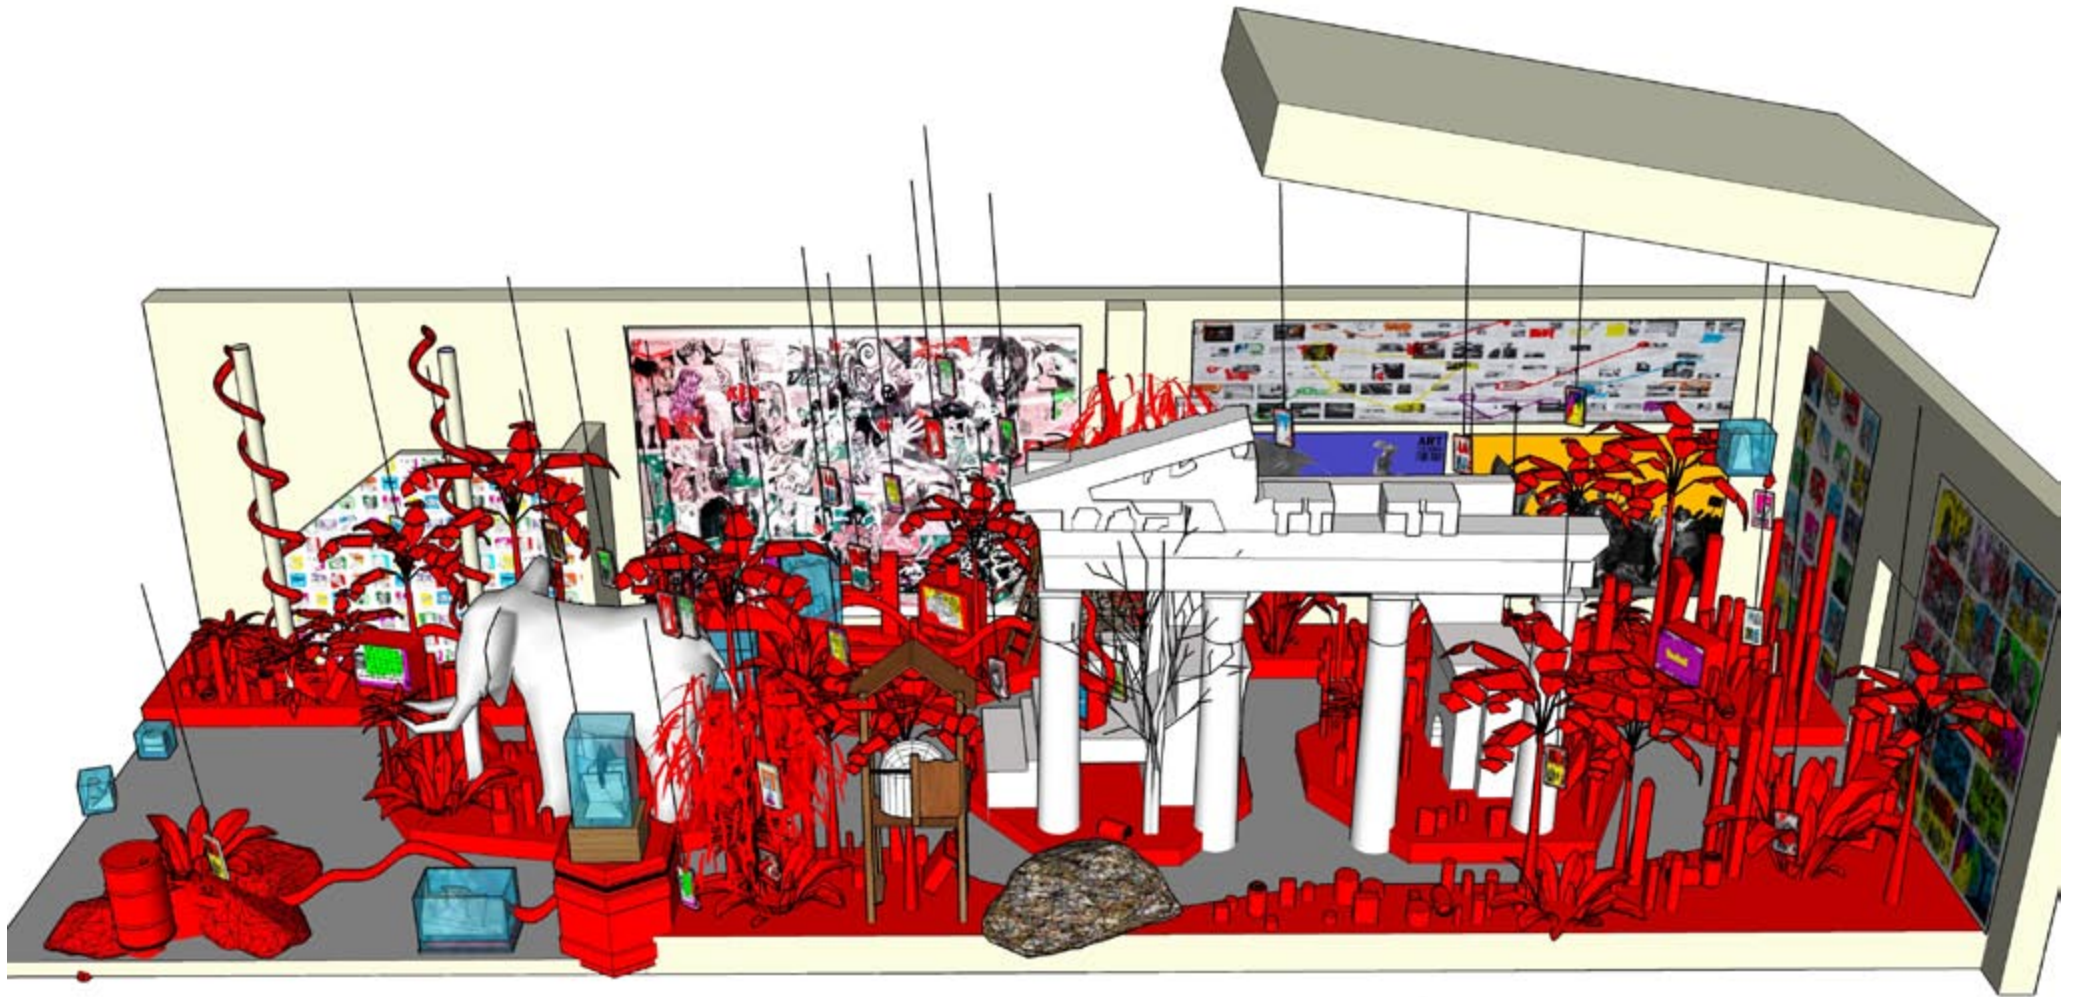

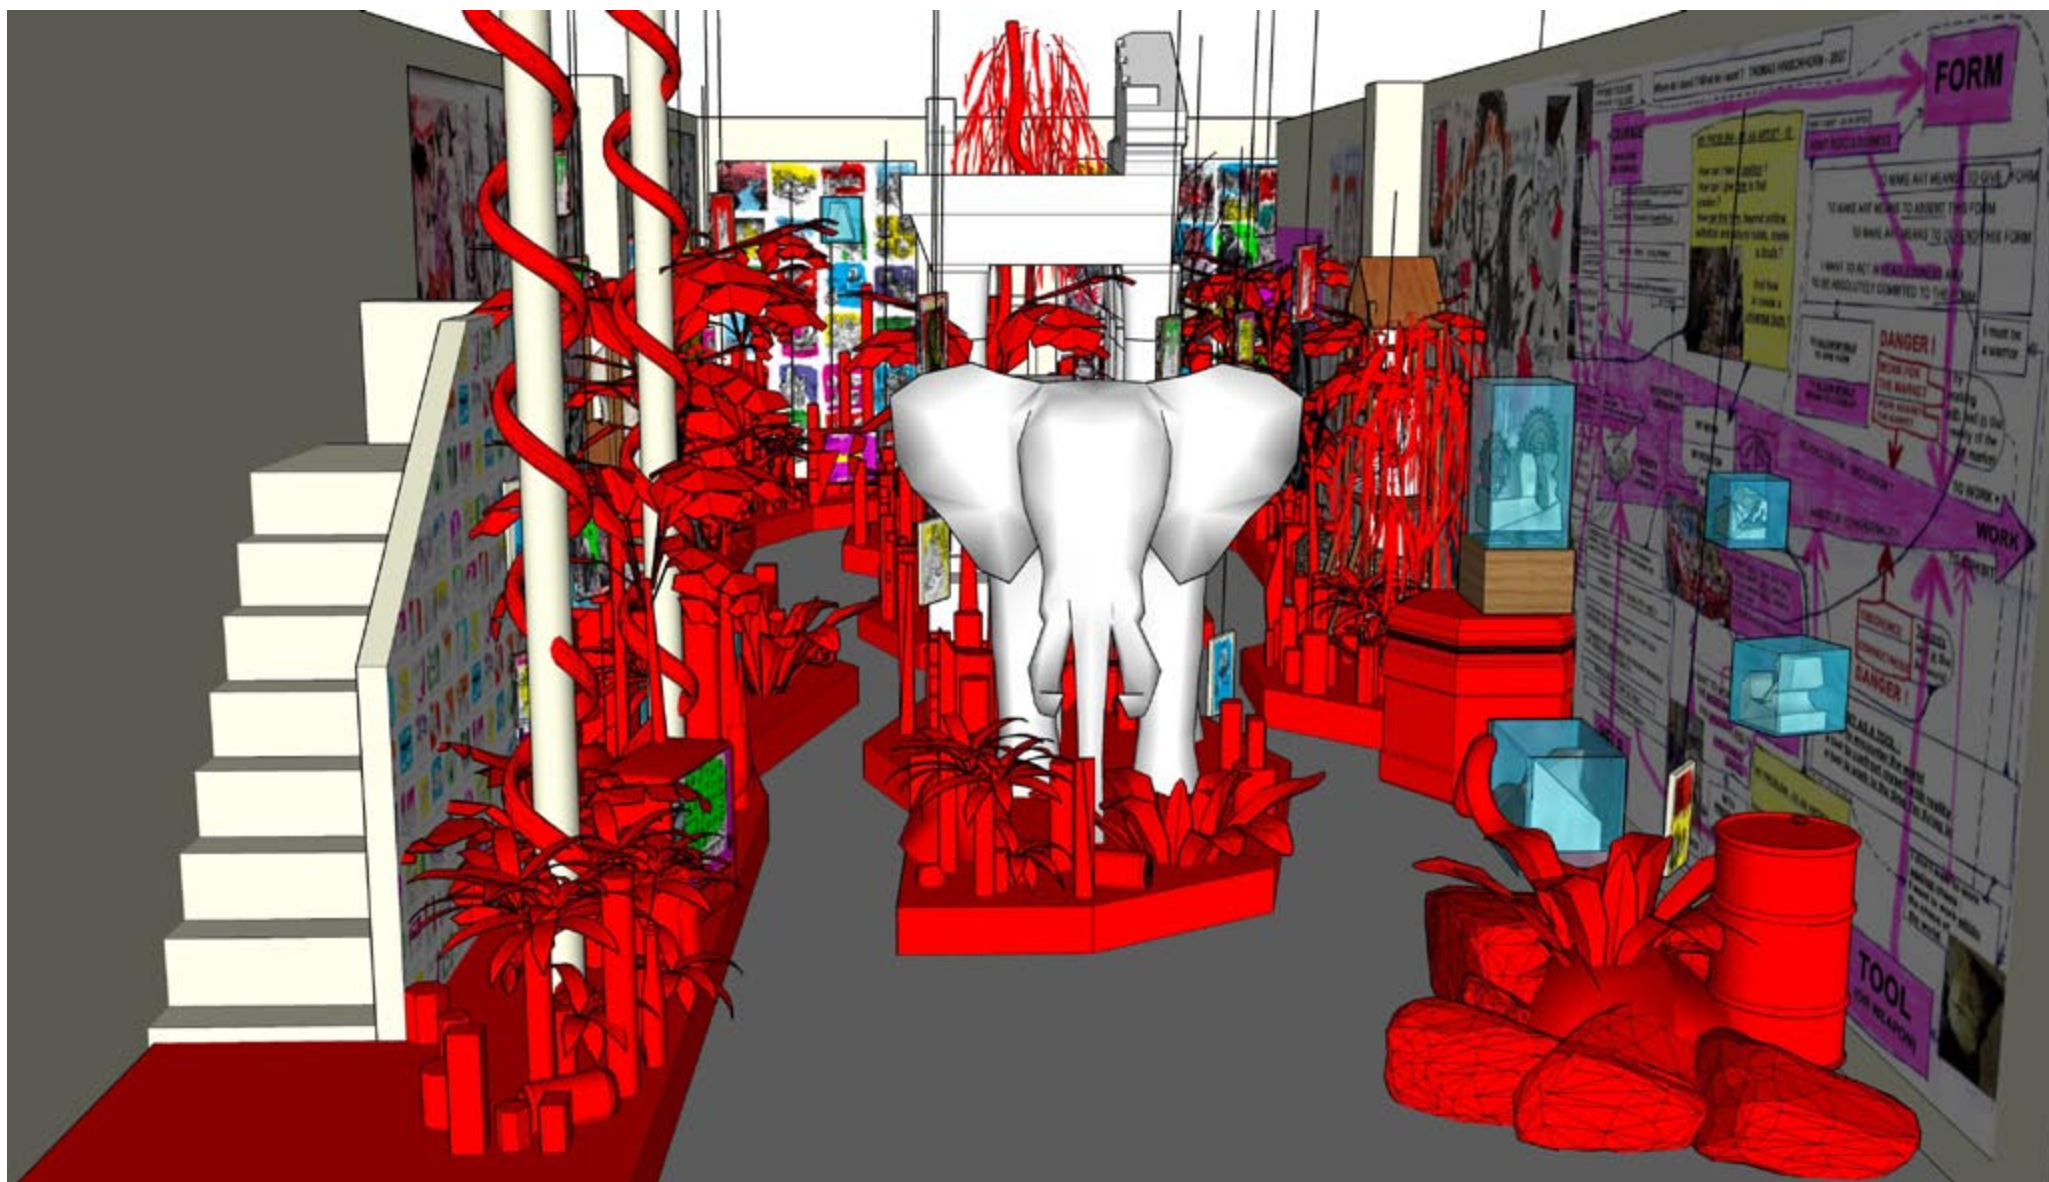

TANGUY SAMZUN

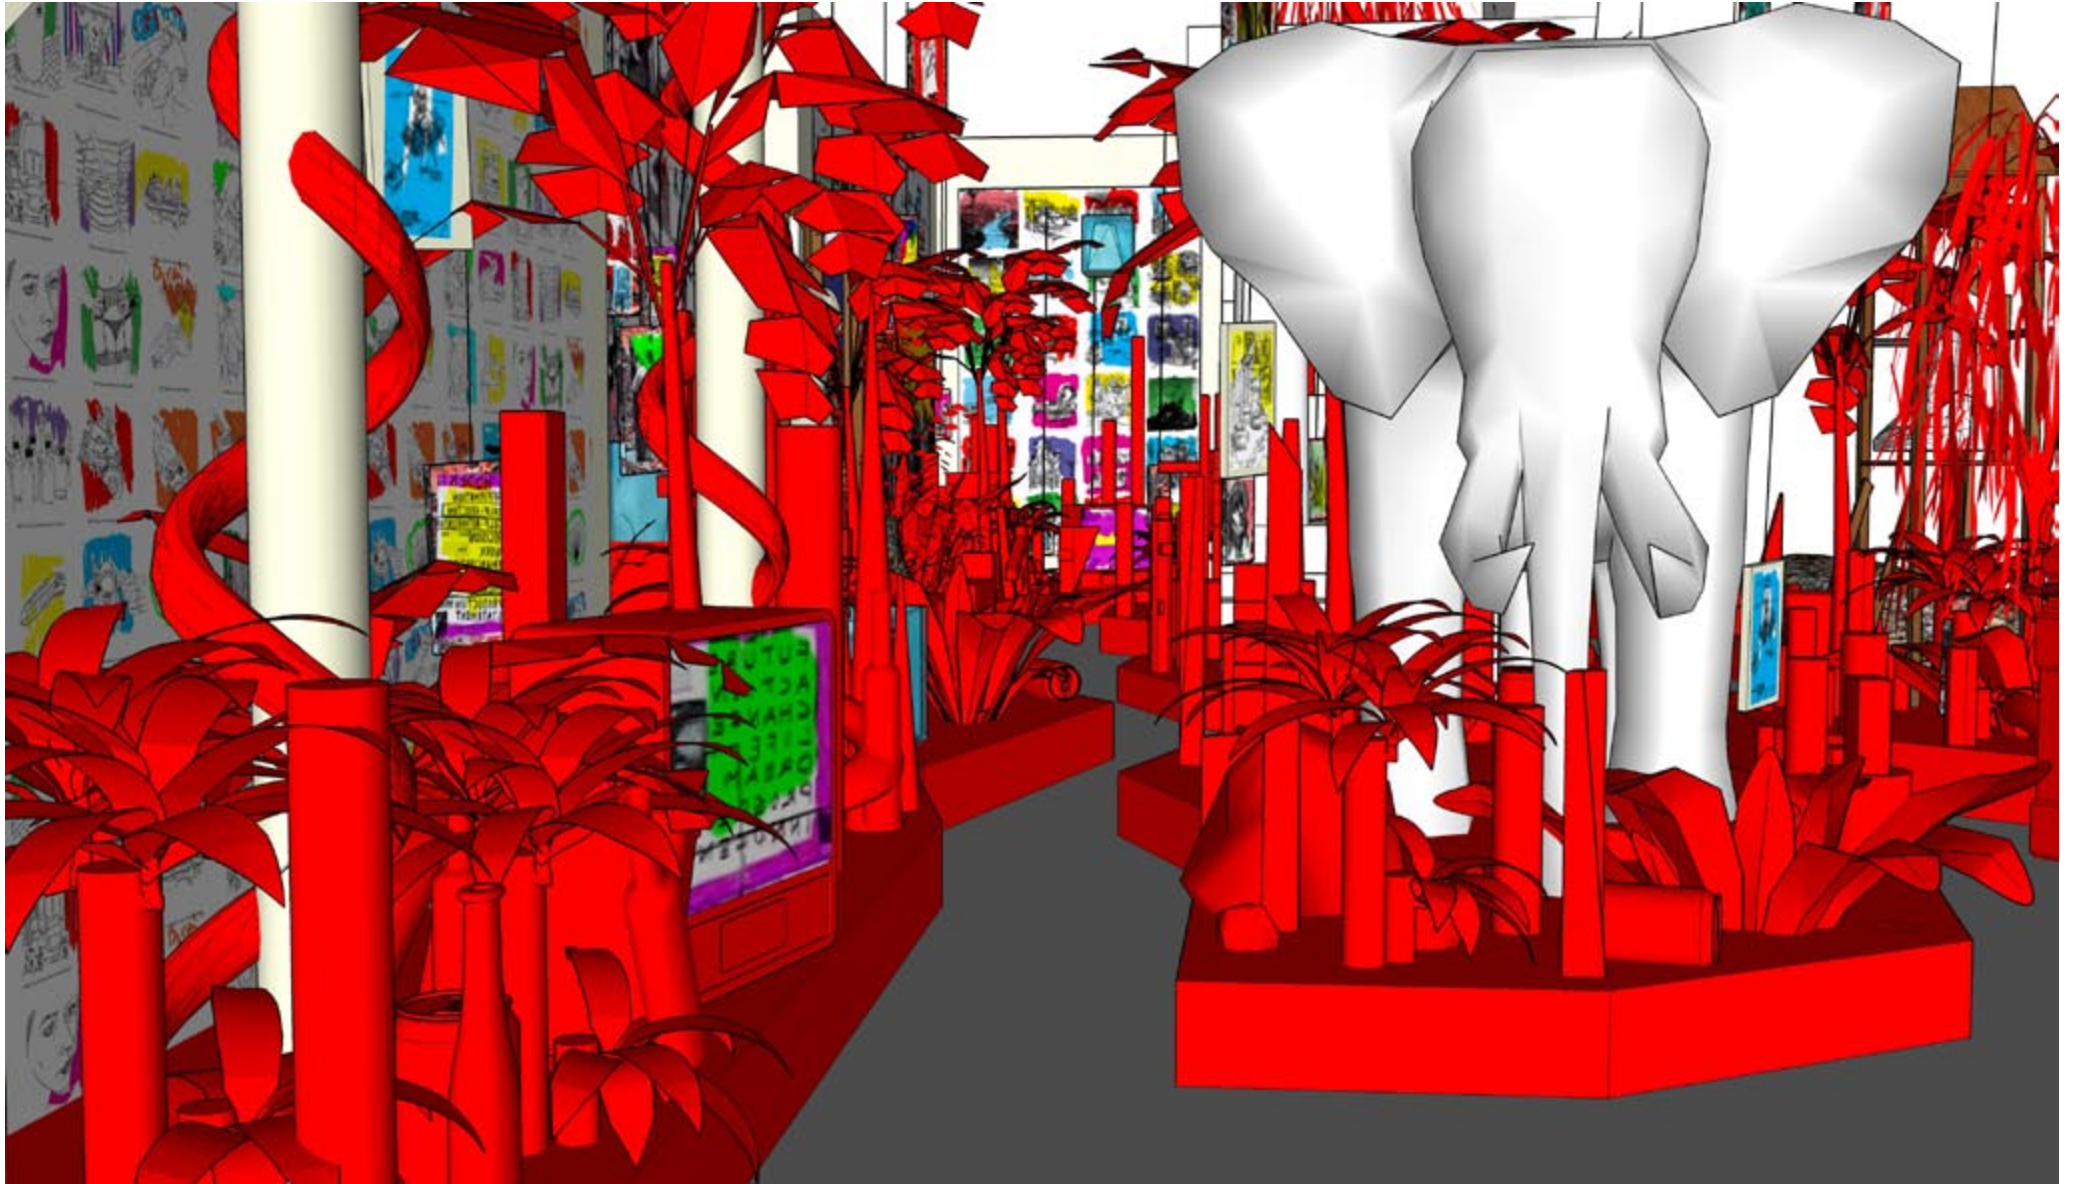

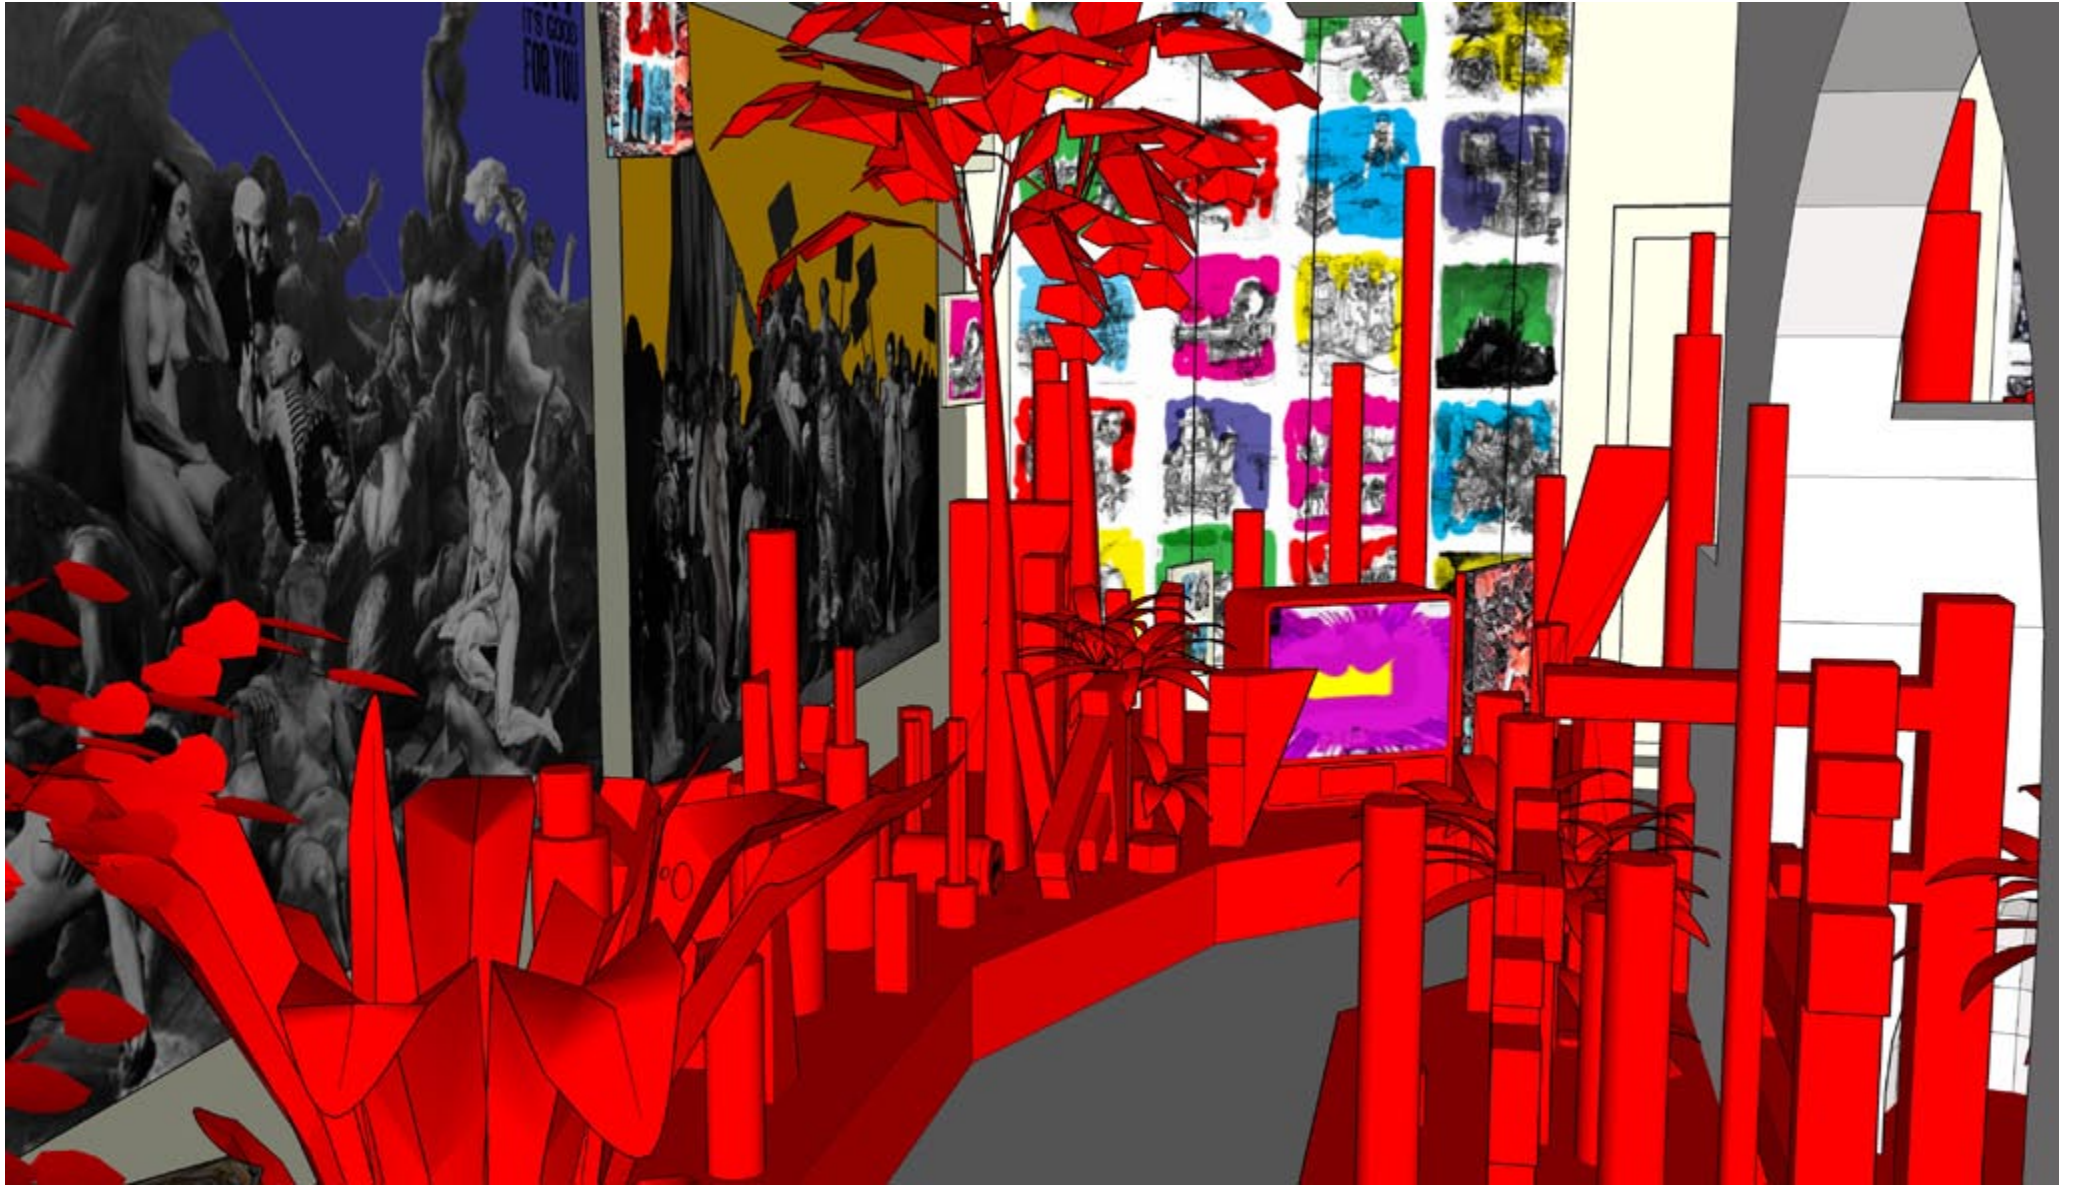

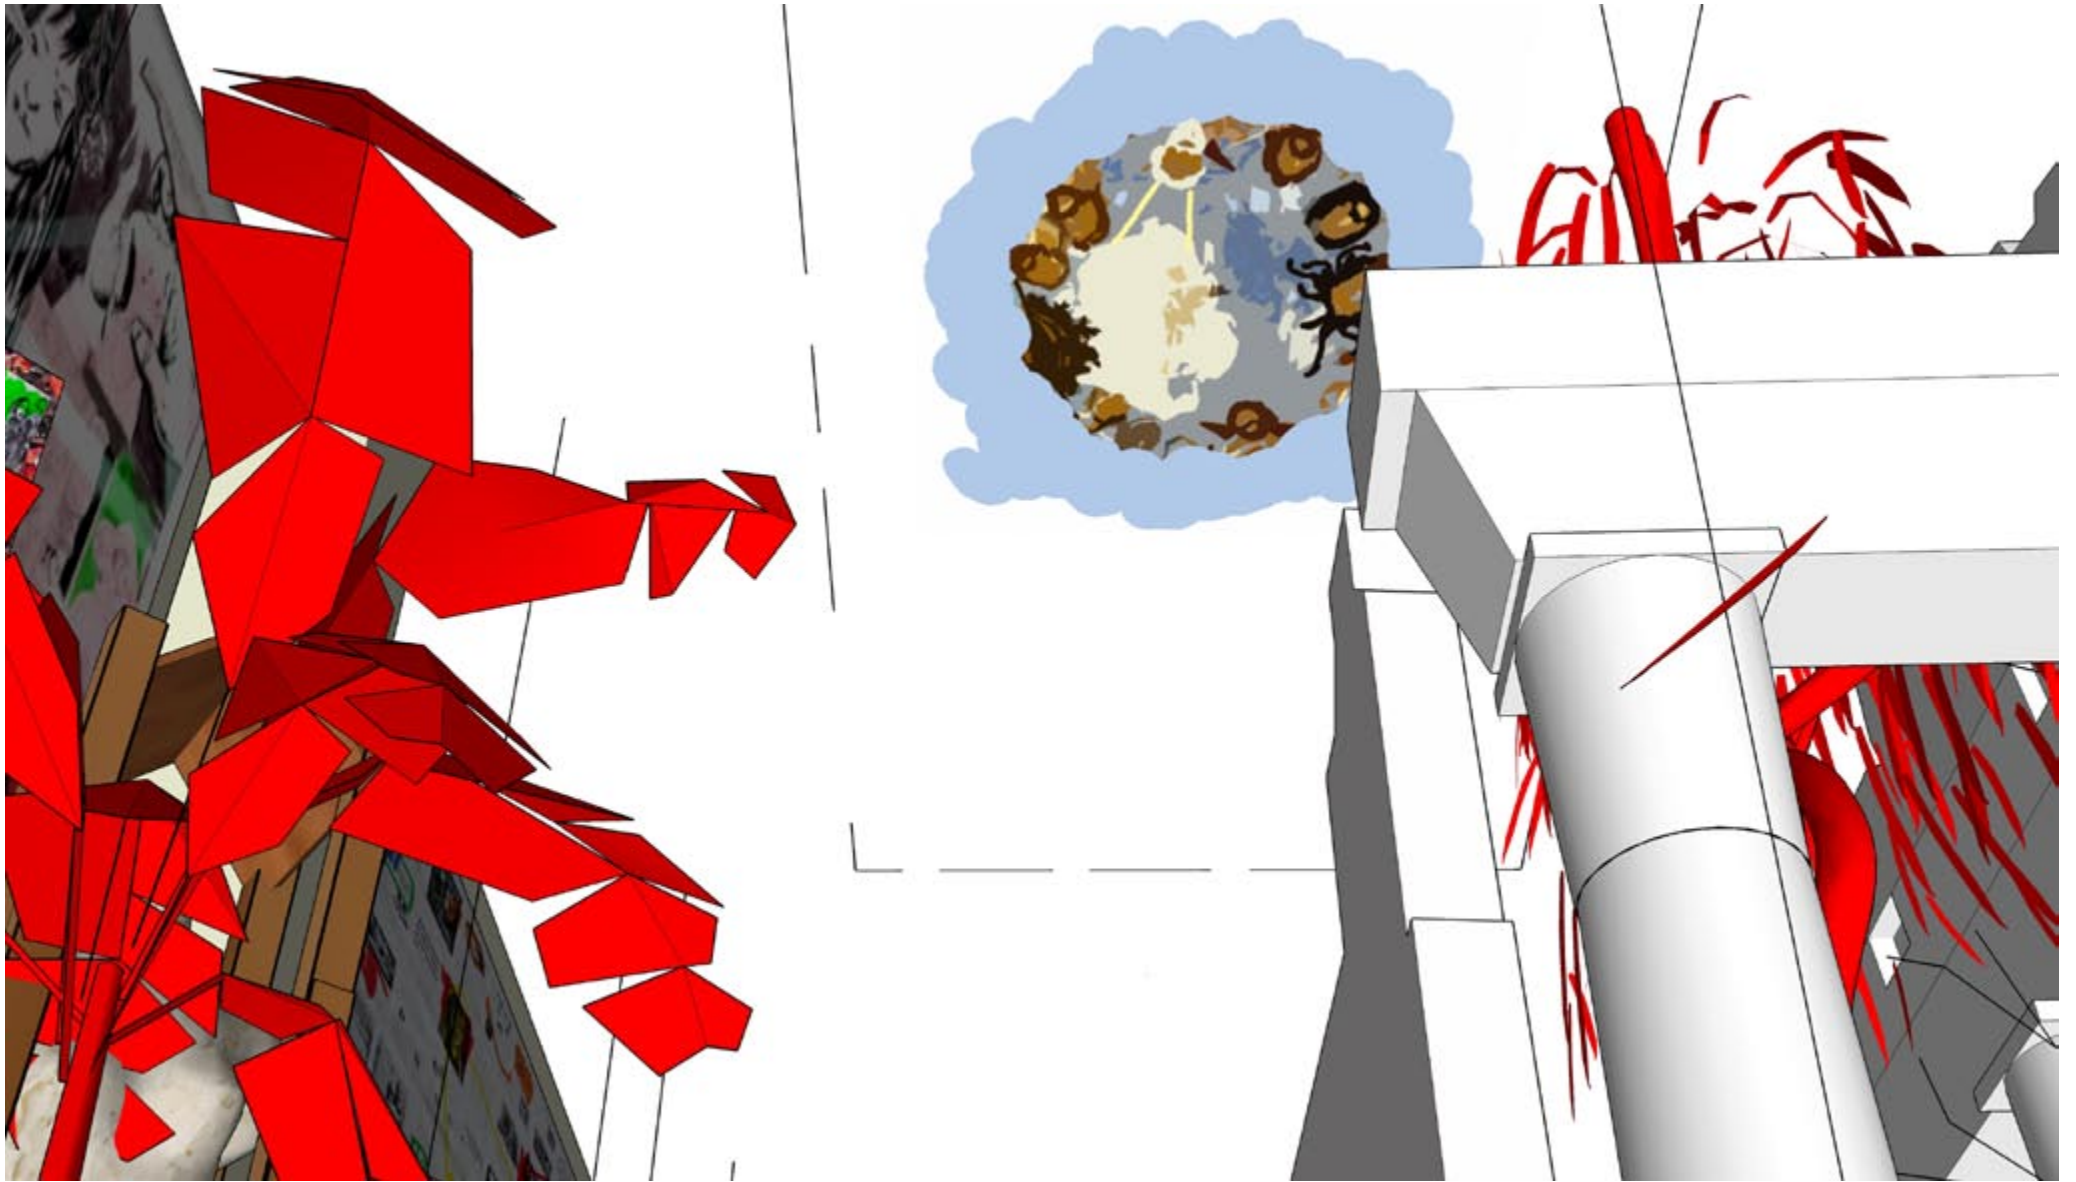

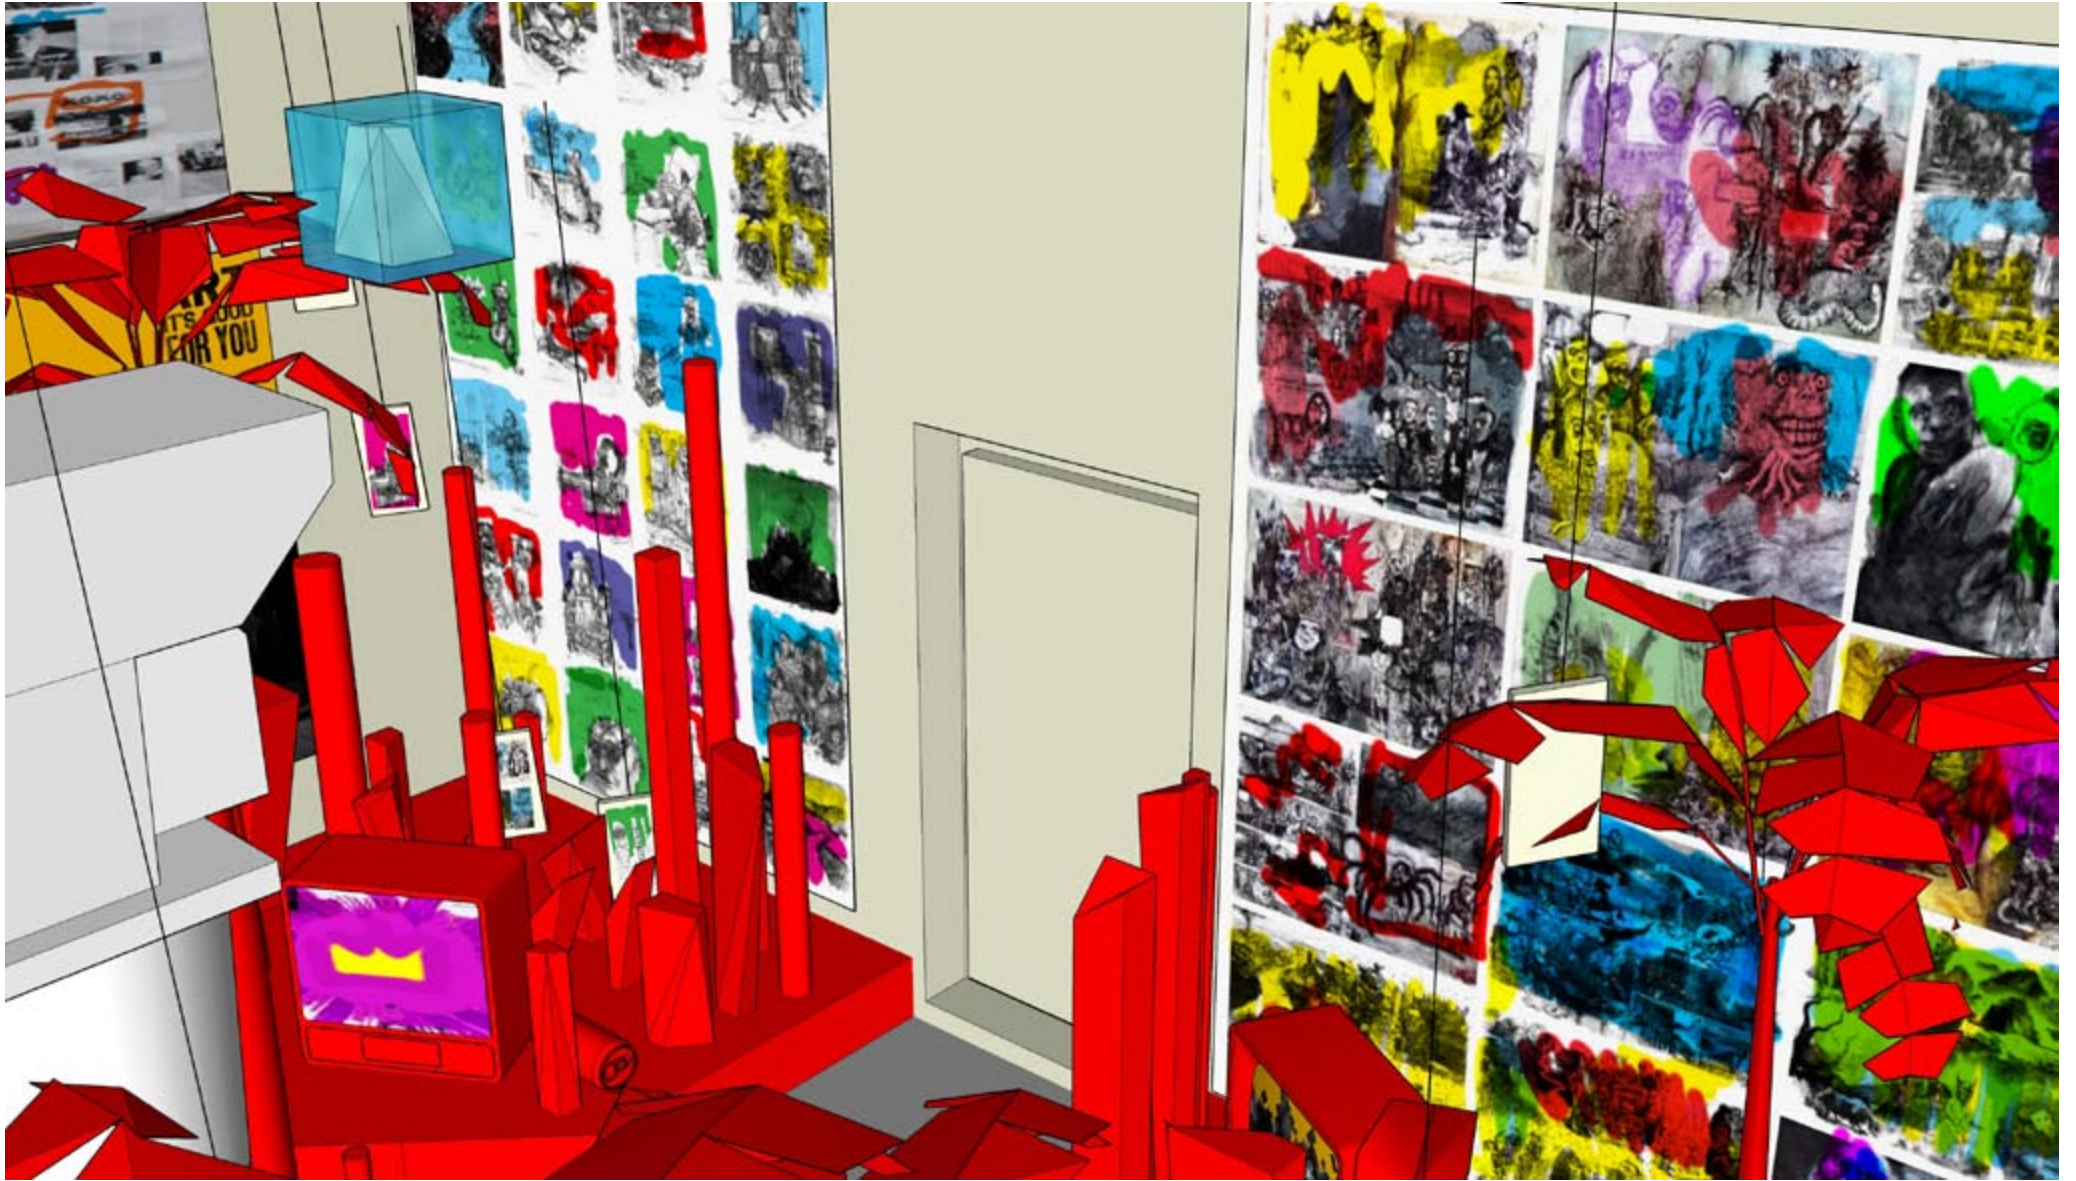

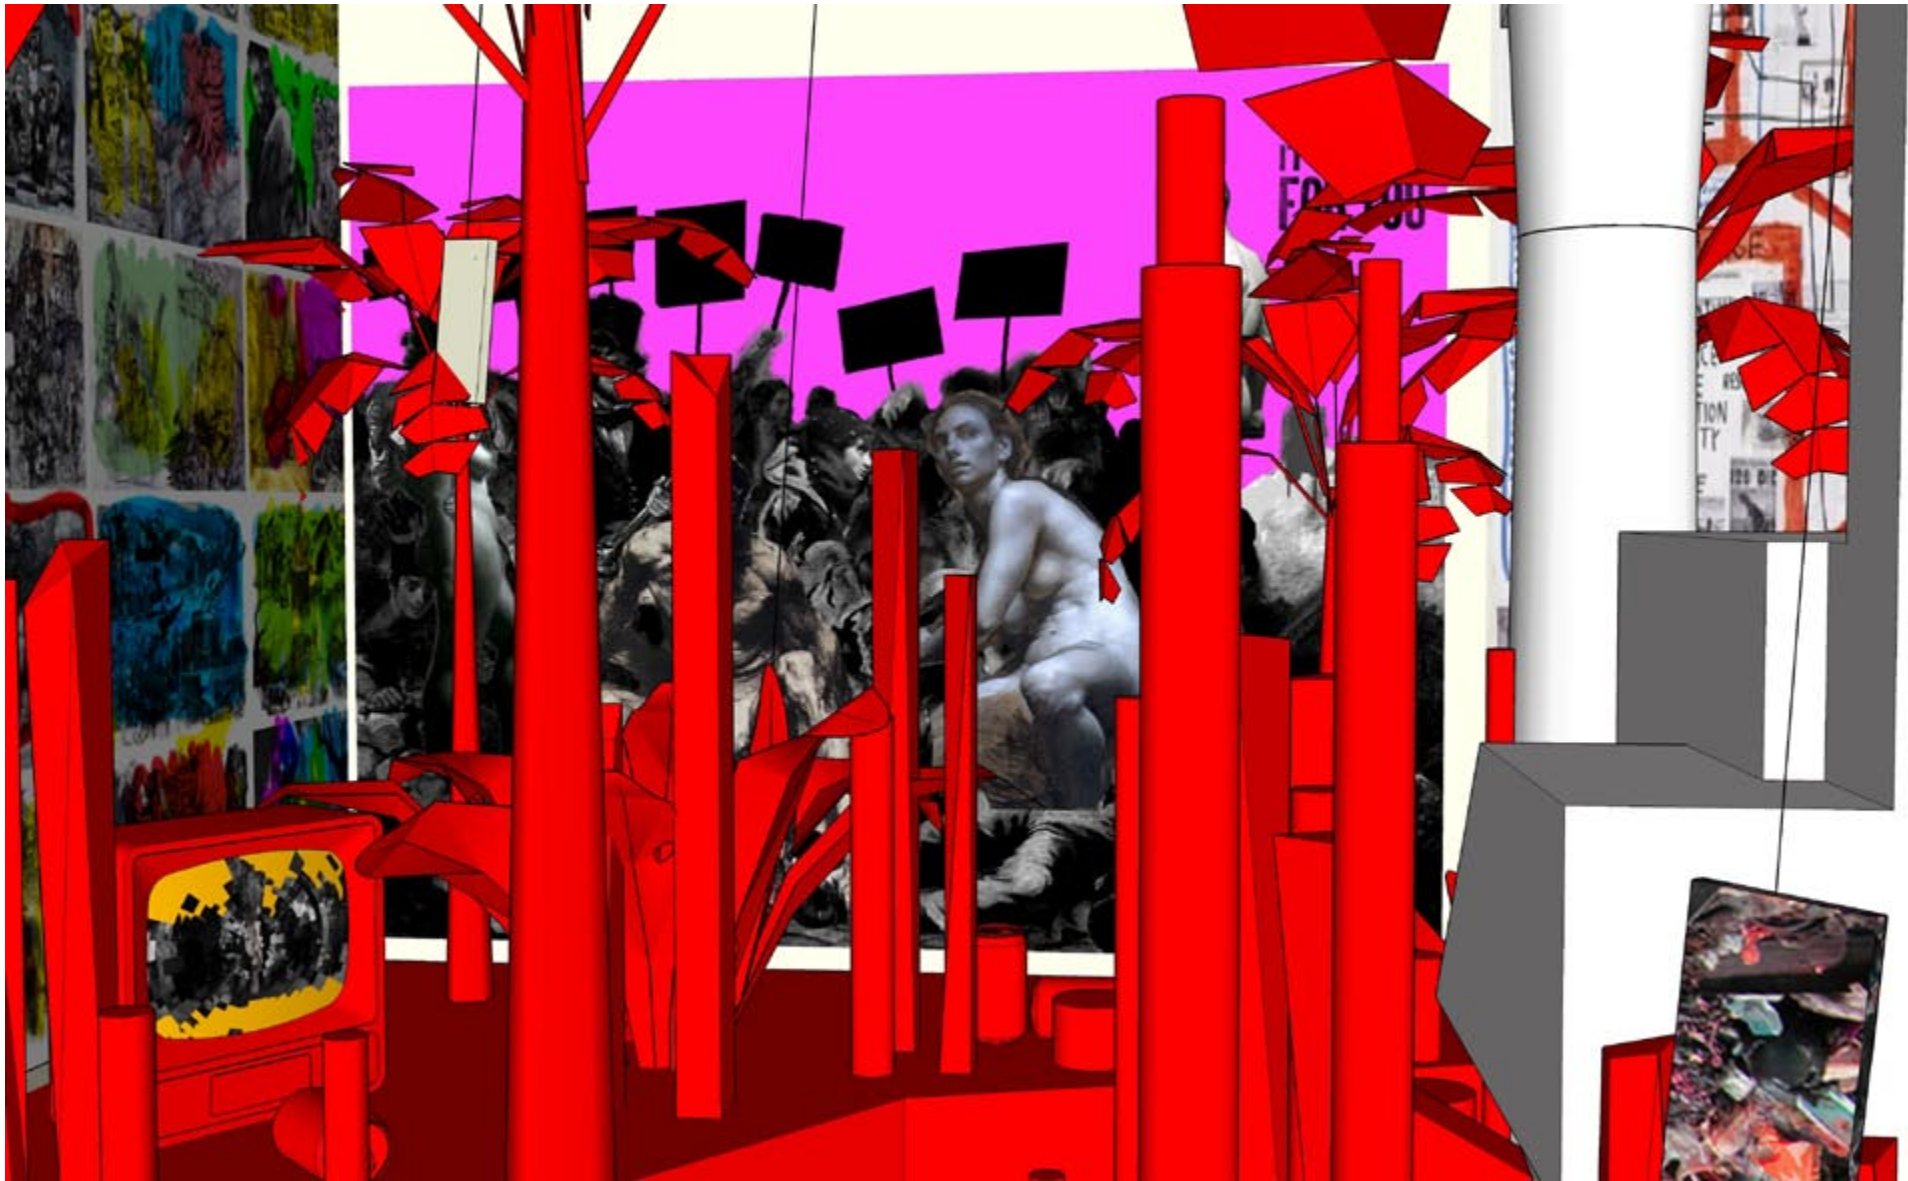

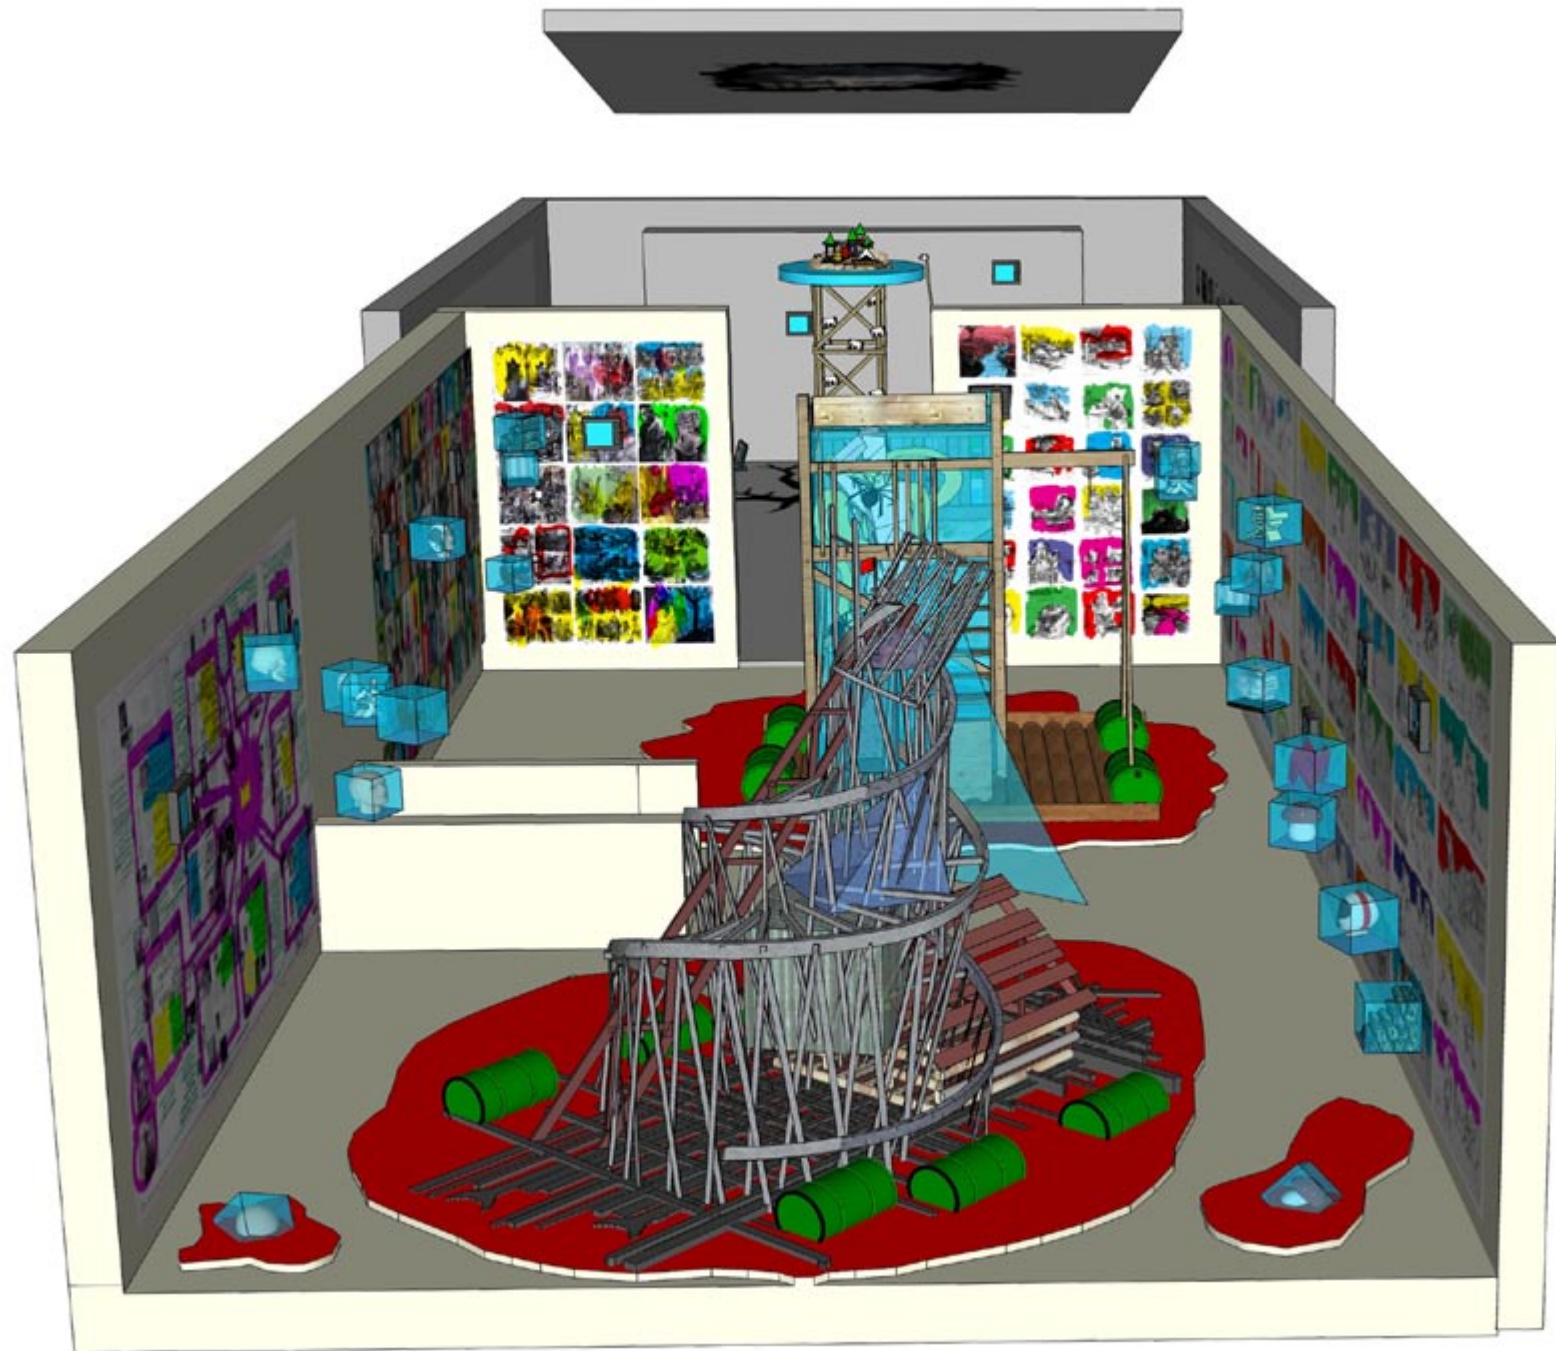

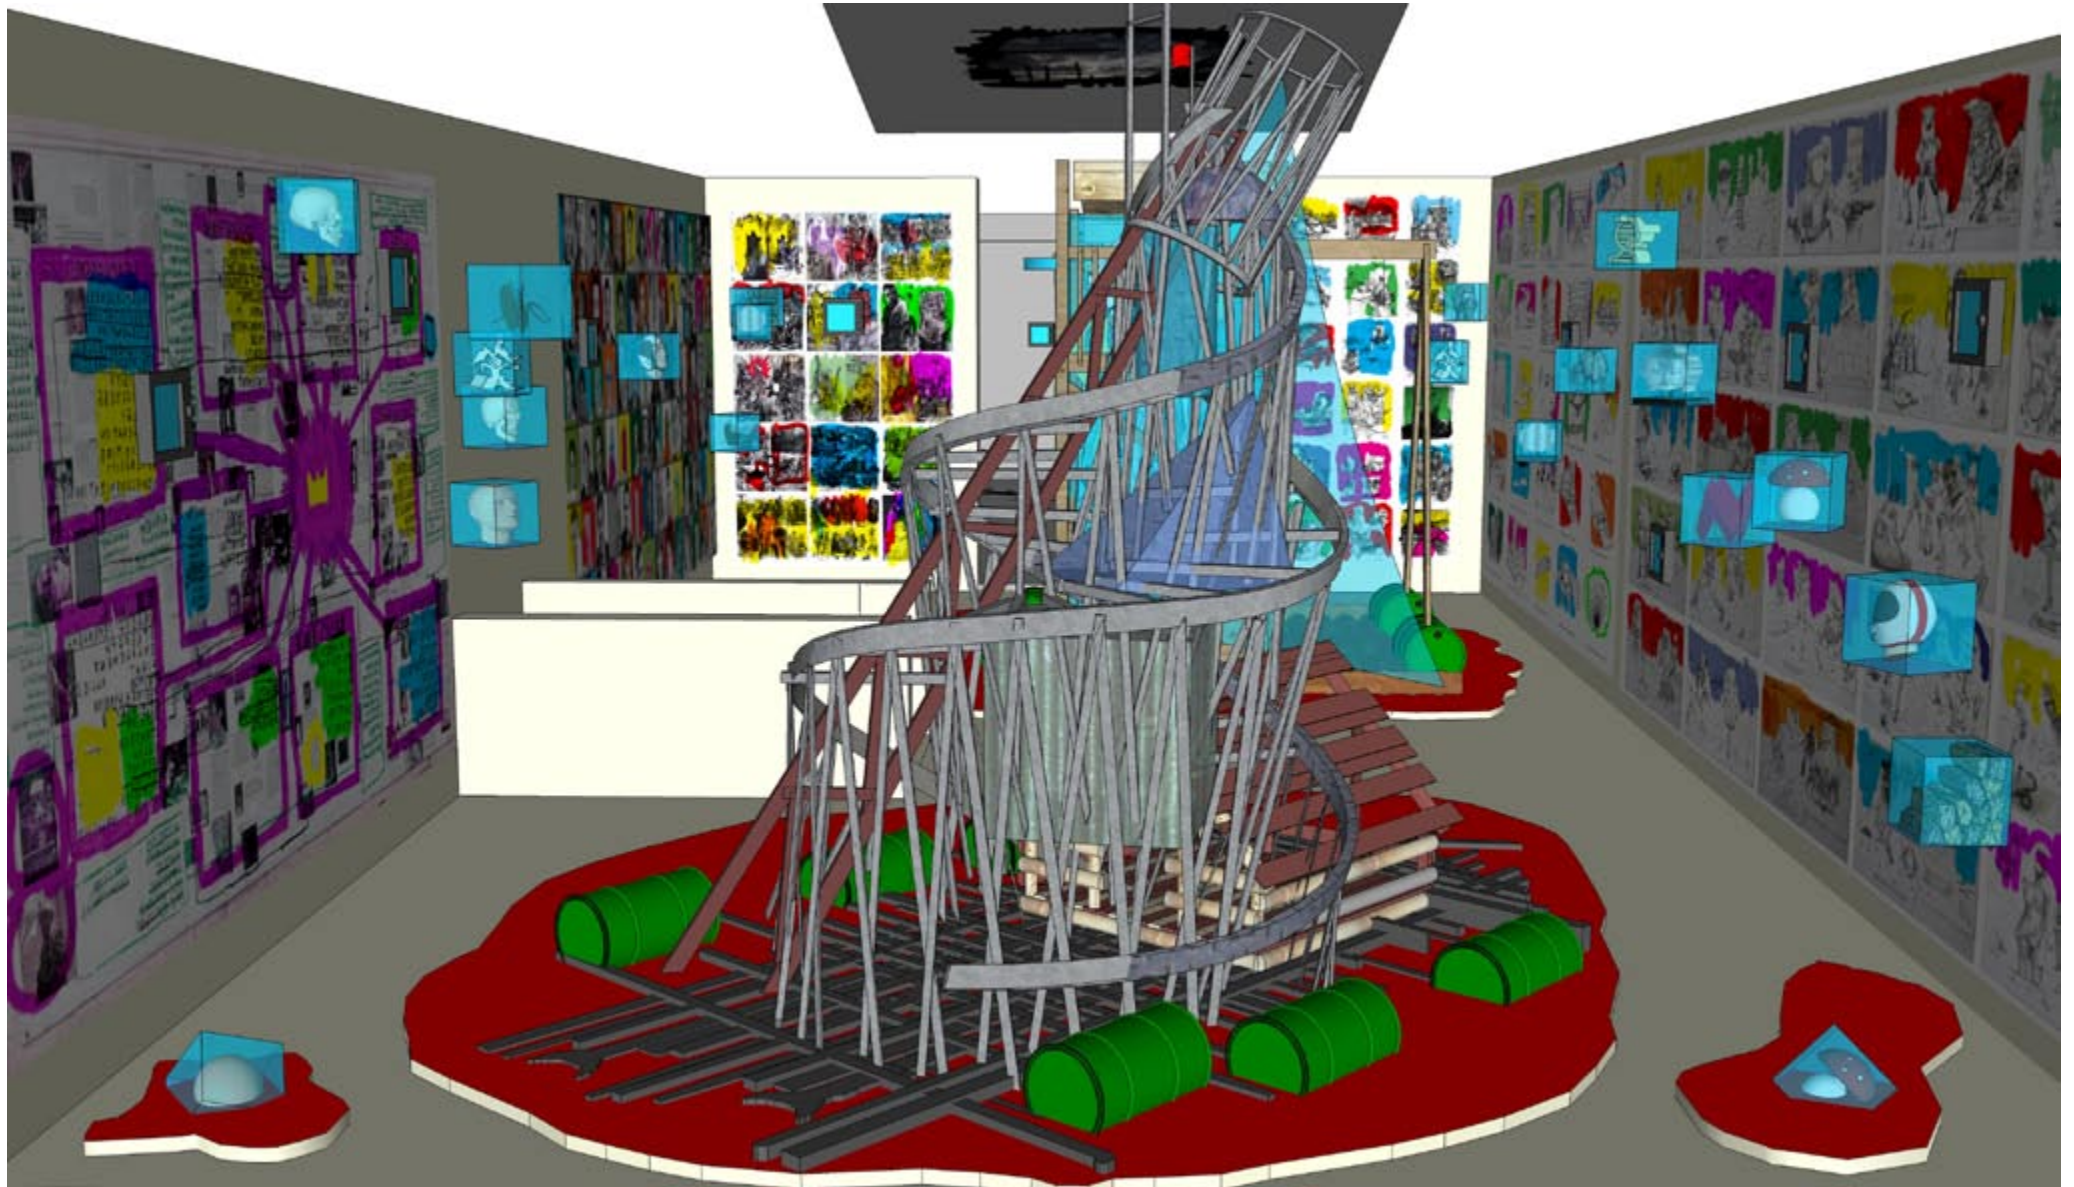

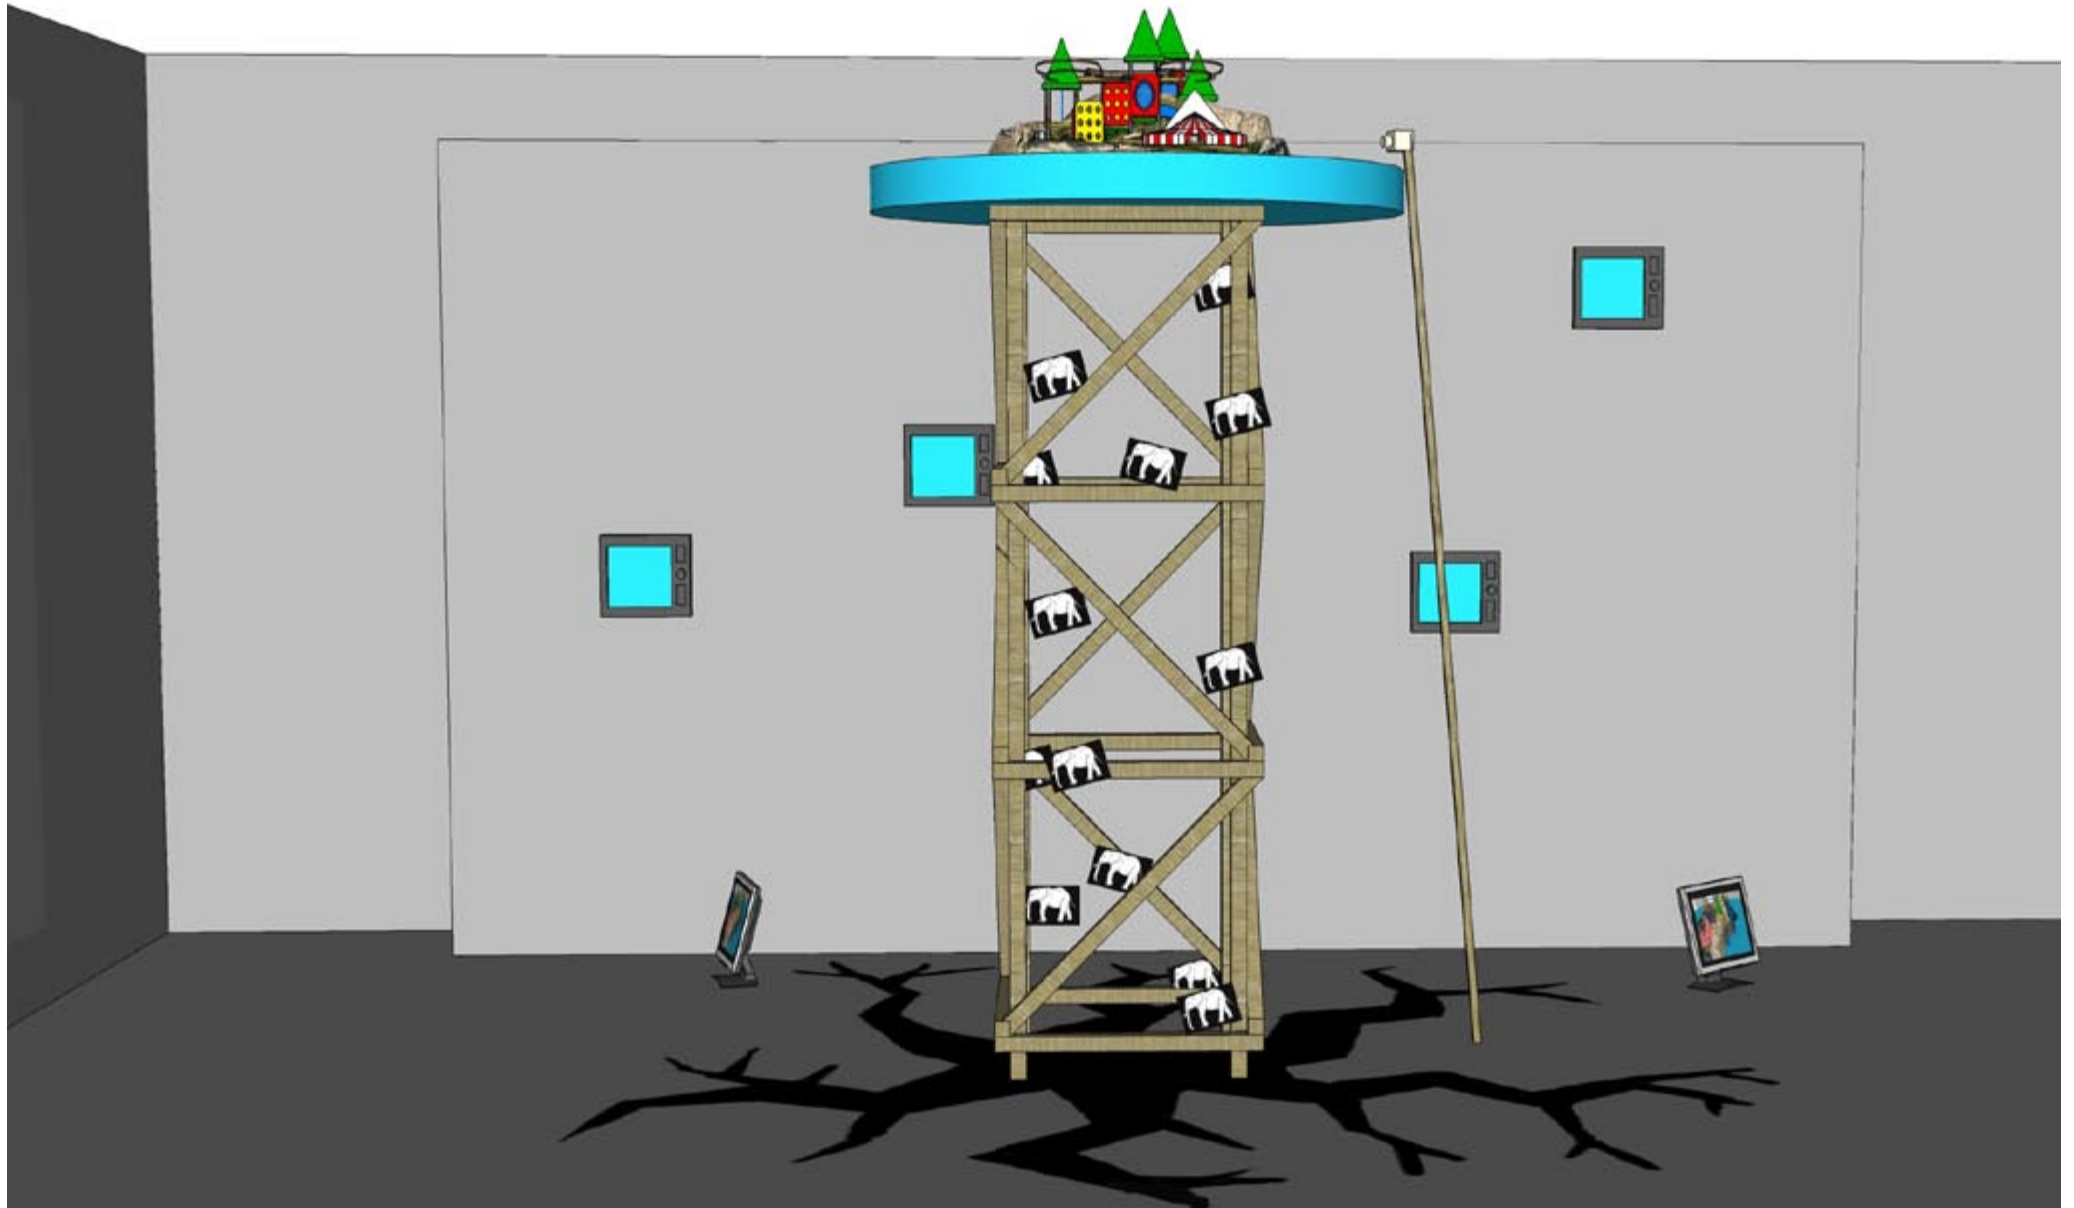

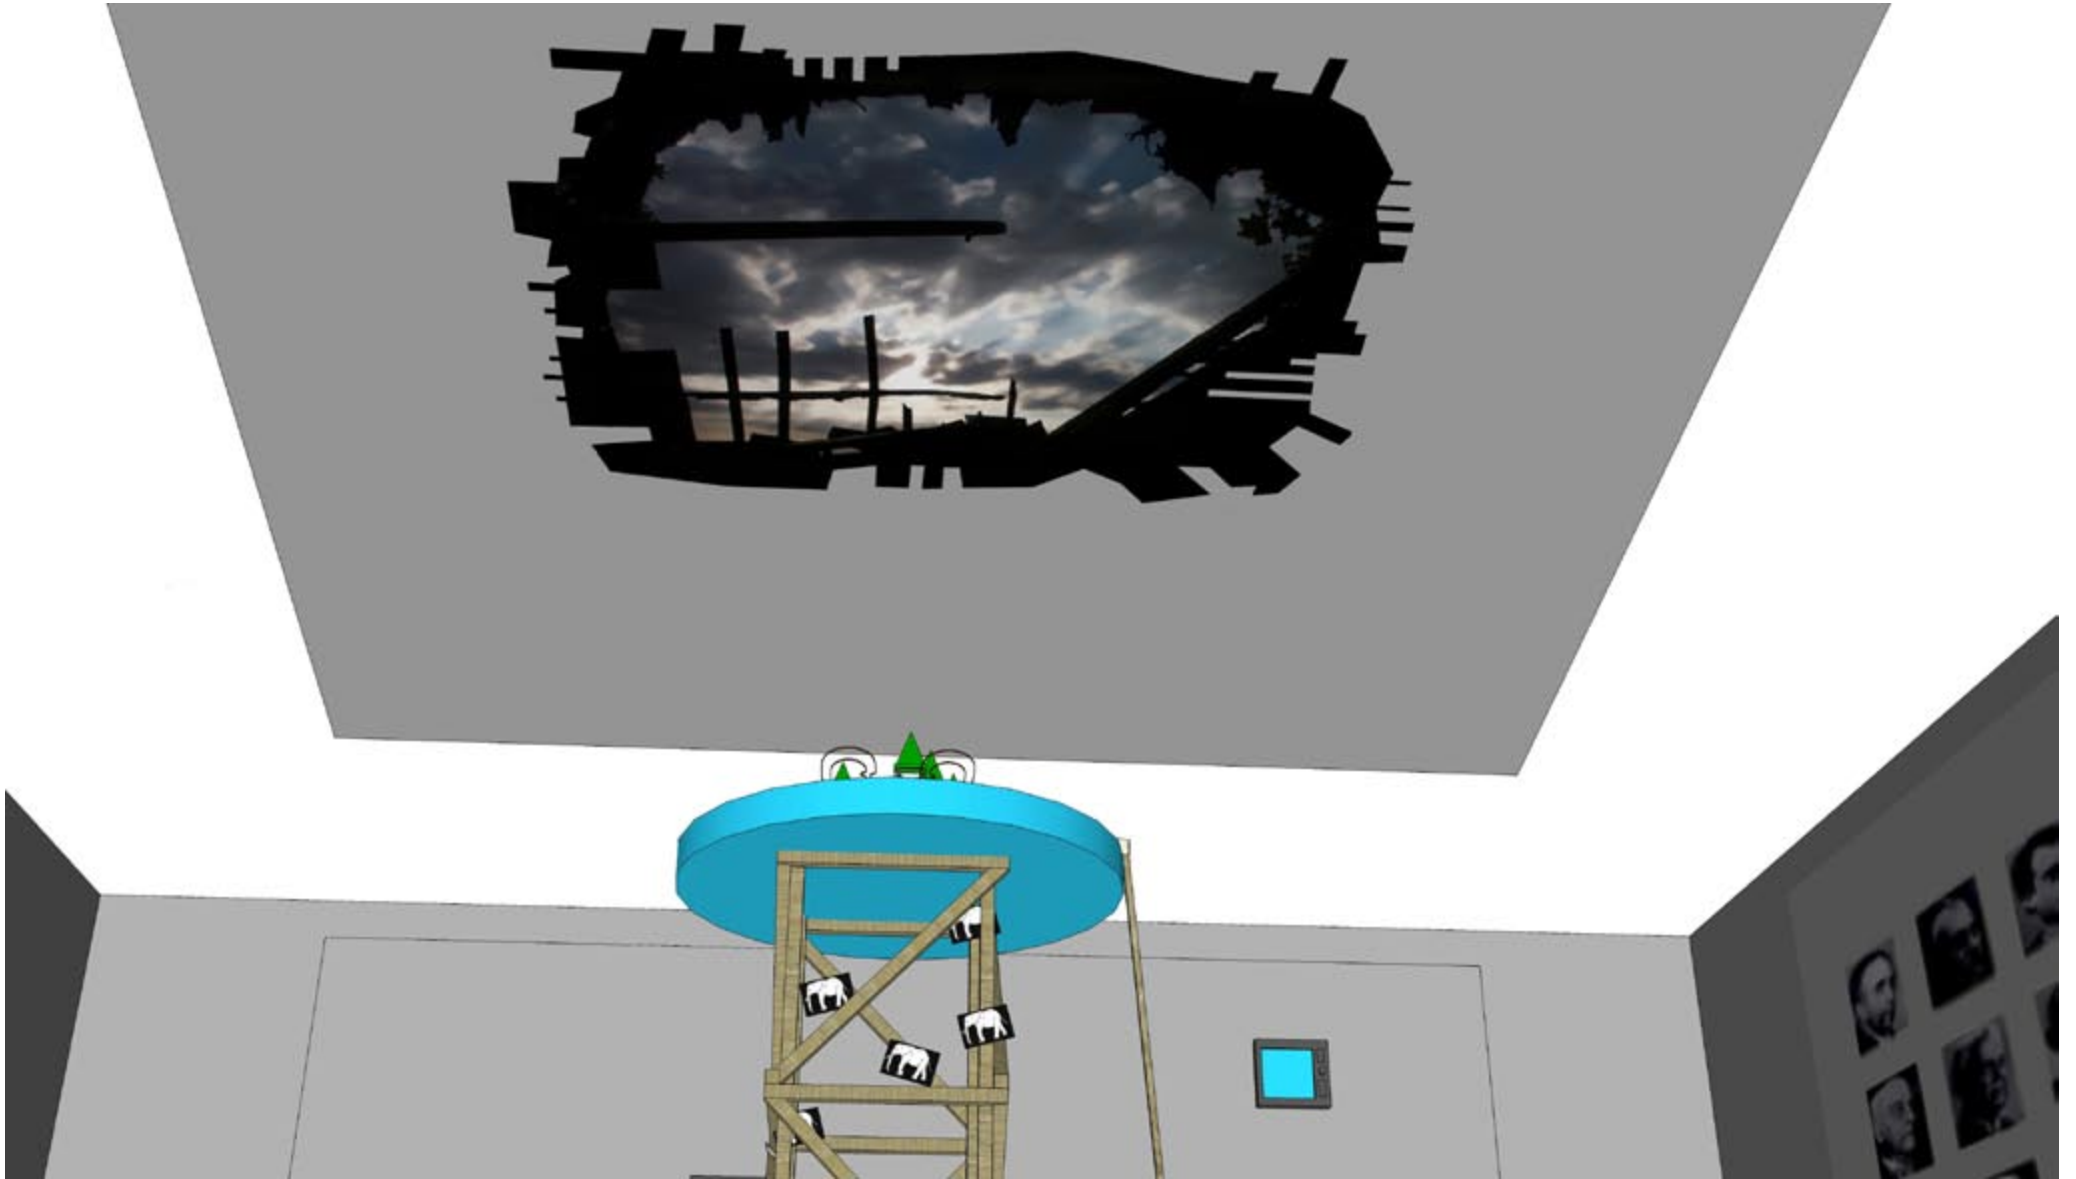

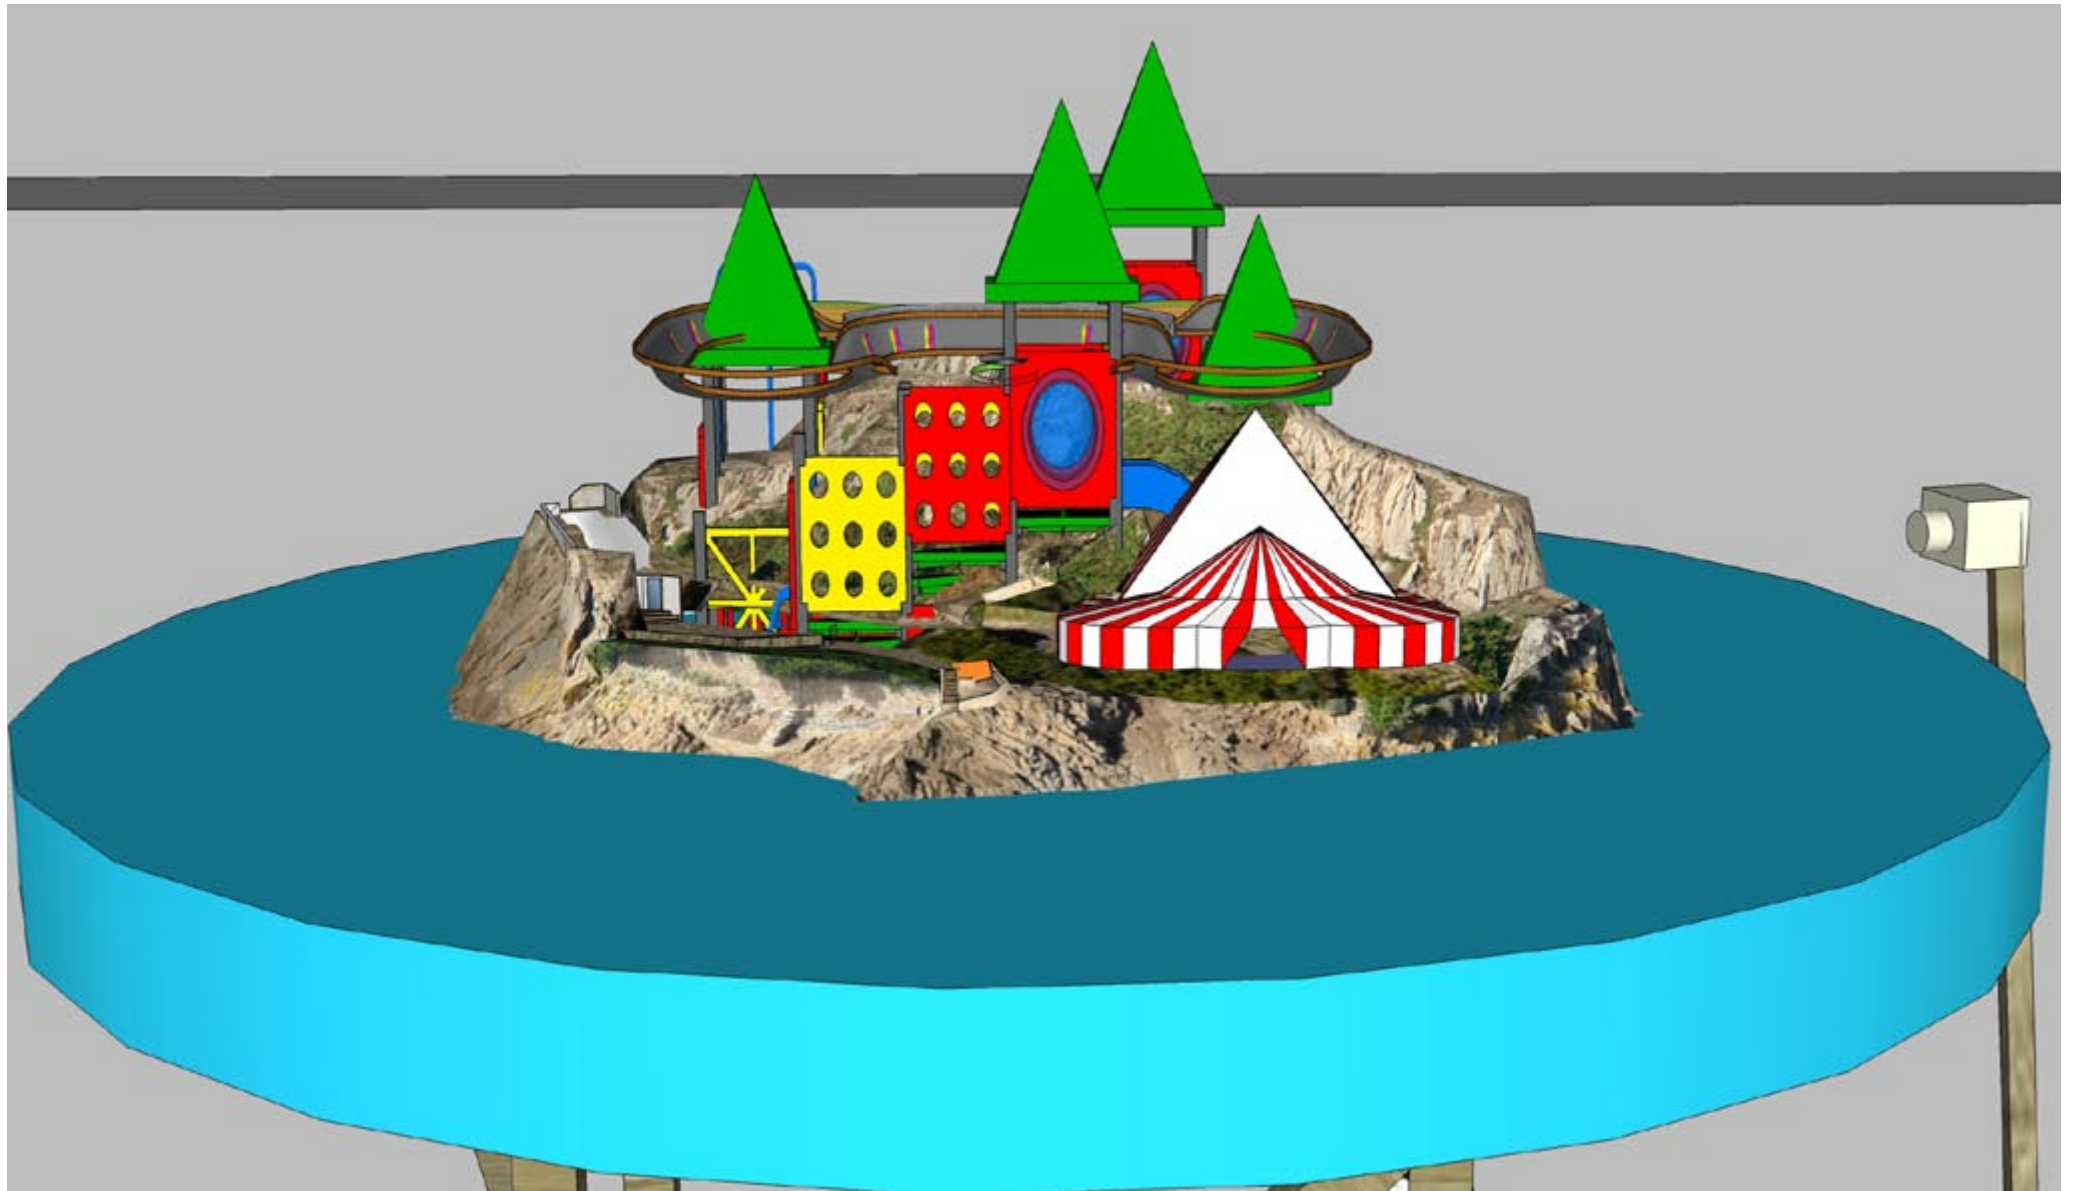

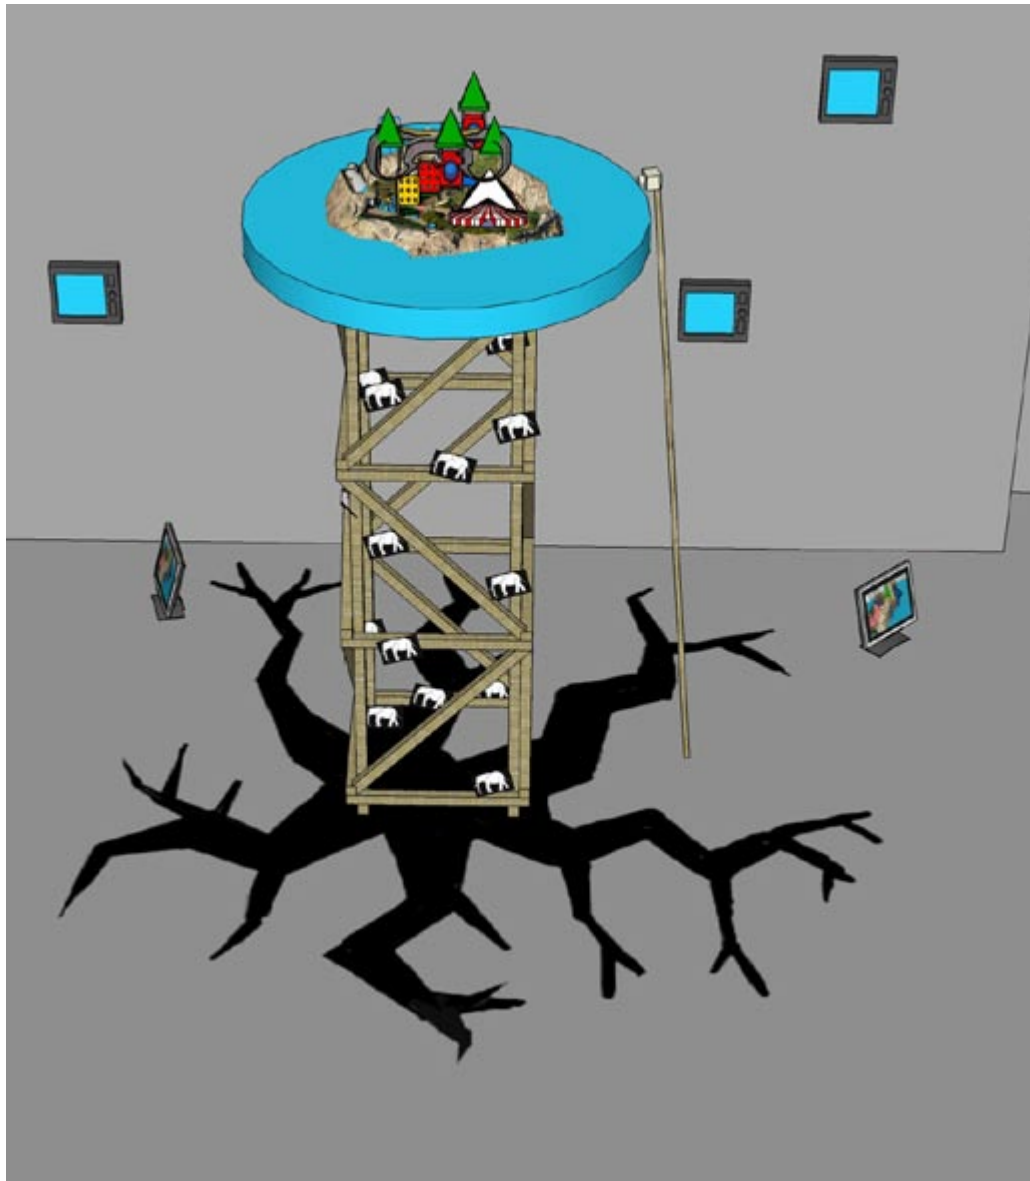

Half of Heaven

Were they with the paradise? or would burn eternally in hell?

They would receive their judgment and the doors of fire would open with them, but which kind of hell? I imagined the hell like a place of eternal torture.

I was already occupied paying and soon I would see the devil, and it is there that he tells me "leave my little chicken!"

I will not hear the least not hellish noise: what their hearts wished, it is that they will remain there for eternity.

It is what frightens the fishermen and their families... For me it is not serious it was worse during my life!
